Harrison Brothers NURSERIES

Berlin-Maryland

Bud-Selection
THE KEY TO
BETTER FRUITS

Harrisons' "Bud Strains"

Some sixty years ago, and almost every year since, Harrisons' have planted orchards, not alone for fruit but principally to secure the type of parent fruit tree that was characteristic of a "variety" dominant in bearing qualities coupled with health, vigor and ability to withstand changeable climatic conditions. This type of tree became the parent supplying the budding stocks for future orchards in America and true-to-name varieties were assured.

HARRISONS' HI-QUALITY TREES

Harrison Brothers

Growers of world famous Fruit Trees, Berry Plants and Ornamentals, cordially invite everyone to visit with us and see how our growing and handling methods result in vastly improved nursery stock. If it is impossible to come here to Berlin, please read this catalog and we believe you will find something to your interest. Remember only the best is sold by Harrisons.

TRUE TO NAME

The World's Foremost Fruit Variety Identification Specialists Have Examined Harrison-Grown Trees and Pronounced Them True to Name.

In addition to carefully selecting the propagating wood from bearing trees of superior strains, we have also employed the services of the world's most eminent authorities on tree identification of the Massachusetts Trueness-to-Name Inspection Service.

To Whom It May Concern:

All of the one- to three-year-old Apple, Plum, and one-year Pear and Sweet Cherry varieties propagated and now growing in the nurseries of Harrison Brothers Nurseries, Berlin, Maryland, have been examined by the Massachusetts Trueness-to-Name Inspection Service. To the best of our knowledge, these trees are true-to-name as they now stand in the nursery row.

65 YEARS LEADERSHIP — **THANKS—Harrison Brothers** — OVER 4000 ACRES

PLANT NOW!
TREES SHRUBS
FRUITS and ROSES

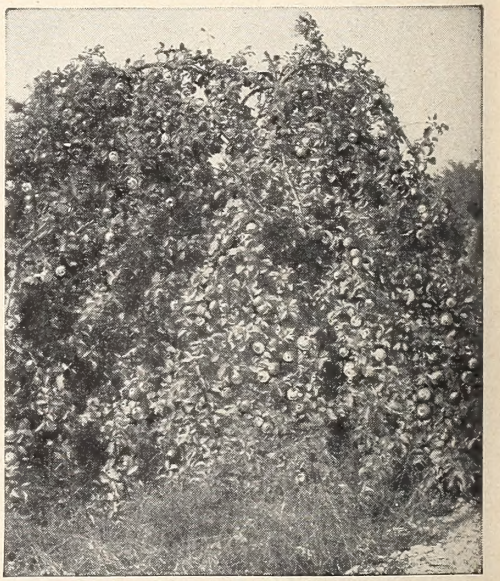
Buying Fruit Trees is an Act of Confidence

Your future success and profit from your investment depends on factors you cannot see—the skill and experience of the nurseryman, the type of parent tree that is used in propagation, the willingness of the nurseryman to stand back of every one of his claims.

For 65 years the Harrison organization has been supplying fruit trees to an ever-widening circle of customers, until today Harrisons' Nurseries are the largest growers of fruit trees in the world. This demand we believe is due to the profit-producing proven heavy yielding, bud selected strain fruit trees we are producing plus absolute dependability and square dealings. Thousands of reports from enthusiastic customers, hundreds of year-in-and-year-out customers, are proof that you can **depend on Harrisons' Fruit Trees.** You buy them without risk and with assurance they will yield you the greatest possible profit.

Dependable Nurserymen Propagate From Bearing Orchards

If fruit trees are continually propagated from the nursery rows, as practiced now by a large percentage of nurserymen, because it is cheaper, fruit trees begin to degenerate, and when the original was a poor type, the nurseryman, without knowing it, continues to reprodcue poor, undesirable, small type fruit. Incidentally, in case there was a mixture in the nursery rows, how could a nurseryman propagate true-to-name trees successfully? We are orchardists and nurserymen, and nothing can compare with our own scientific method of "bud selections"—it always gives complete satisfaction and spells profit for the fruit farm.



TODAY FRUIT GROWING is making inroads on the big farms—little orchards lead the way to a profitable and worth-while fruit market.

This is Your PROTECTION

Every customer is assured of Harrisons' Hi-Quality Trees and Plants at all times. Expert growing on proper soils, careful digging and packing is Harrisons' policy on every order. Every tree and plant we ship is guaranteed to be strictly first class, free from injurious diseases and insects and to reach you in good condition.

Any time trees or plants are received that do not meet those standards they will be replaced free of charge or your money refunded.

Continued growth depends on soil, weather conditions, planting and after care. After ten days it is mutually understood that the nursery stock is satisfactory; however, we will replace nursery stock that dies from unavoidable causes at half price, if notified within two months after its arrival.

WILLIAMS' EARLY RED

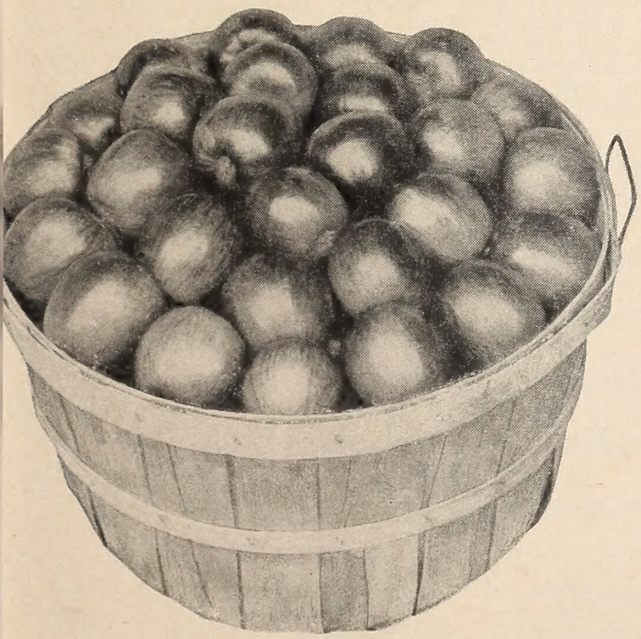
The Big Red Home or Market Apple

Just at the time when people are hungry for a fresh, new red Apple, this superb sort comes into market. In New York, Boston, Philadelphia, and other eastern cities as well as middle western and southern cities, the fruit sells as quick as it hits the market-house or dealer's store. It holds its own anywhere and has proven to be—

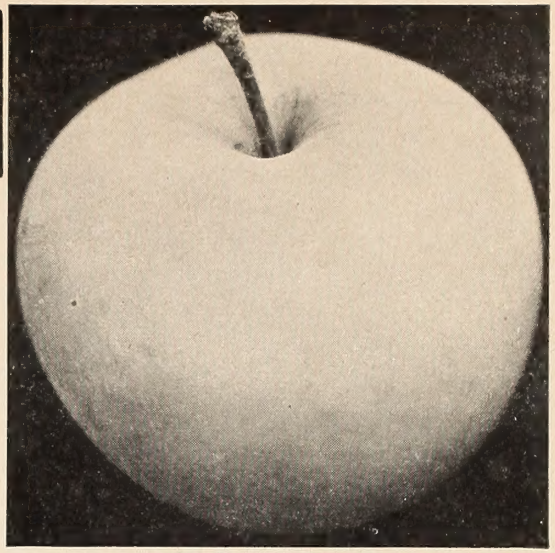
The Best Summer Apple

The rich bright red fruit catches the buyer's eye and is ordered at a price that yields the grower a good profit. Apple is large, with tender, crisp, white flesh, juicy, slightly tart. The trees come to bearing when quite young, producing freely and steadily. Fine for a filler or permanent tree, and being hardy, can be successfully grown in New England states and Canada. All orchards should include Williams Early Red.

A good pollenizer for Red Yorking and Red Rome Beauty Apple trees.



WILLIAMS EARLY RED—Ready for Market When Folks Just Get Hungry for Apples



LARGE TRANSPARENT (Lodi)
You Can Depend on Bumper Crops—
Plant Harrisons' "Bud Selected" Strain

SUMMER APPLES

LARGE TRANSPARENT (Lodi)

A New Summer Variety

Ripens Very Early—Destined to Replace the Ever-Popular Yellow Transparent

We believe there is a big future for this new summer Apple. Our commercial friends should lose no time in anticipating the demand for an Apple of this type.

Somewhat of a dwarf grower, bearing very young, it makes an excellent filler. The skin is a clear yellow, white flesh, of medium size. A good pollenizer.

EARLY APPLE GROWERS MAKE MORE MONEY WITH LARGE TRANSPARENT

Yes, actual profits, that's what we mean. It can be done—here's why: Yellow Transparent Apples are always first on the market and generally bring good profits when they attain proper size. Size on Yellow Transparent is hard to get, but easy on its big brother, "Large Transparent," which ripens at the same time.

Large Transparent Apples Average Up to ½ Inch Larger Than Yellow Transparent—This Means $1.00 to $2.00 per Bushel Extra

OTHER SUMMER APPLES

STARR. Large, attractive with bright yellowish, smooth skin; sometimes marked with a faint blush and numerous russet dots; flesh yellow, fine, very tender, crisp, juicy, aromatic and of extra fine quality, bringing highest prices. Recomemnded to those with nearby markets, but a poor long distance shipper. Popular in Southern New Jersey.

DUCHESS OF OLDENBERG. Large, striped, tender, juicy, sub-acid, good; regular and abundant bearer. One of the hardiest. Best pollinizer for early blooming varieties.

TWENTY OUNCE. Very large, fine quality, yellow striped red.

WEALTHY. Medium to large size; round, almost solid red; flesh white or a little stained, tender, crisp, juicy, fine grained, aromatic and very good flavor. Relatively good keeper. Old variety most extensively planted in North. Tree is very hardy, withstanding unusually cold climates, vigorous, fruits at early age, bears regular and abundant crops. Tree somewhat dwarf, making a fine filler.

EARLY McINTOSH. Resembles its McIntosh parent in appearance, but is less aromatic. An attractive, uniform red color, good size, flesh white, tender, and juicy. The trees are vigorous, hardy, healthy, productive, and bear annually if thinned early and severely. The shape and framework of the tree, especially the heavy-butted branches, are like those of McIntosh. The crop ripens ten days later than that of Yellow Transparent. The fine flavor is similar to that of famous McIntosh Red.

RED SUMMER RAMBO. A new earlier coloring solid red strain means much greater profits for growers everywhere.

SUMMER RAMBO. Large, splashed with red.

EARLY RED DUCHESS. Highly colored early Apples bring premium prices, this bud sport colors red all over early in the summer. Excellent pollinizer for Red Gravenstein.

YELLOW TRANSPARENT. Medium size, greenish yellow, very heavy bearer. Most widely planted yellow variety.

7. **Completely Tested.**
8. **Excelled by No Other Red Bud Sports or Strains.**
9. **No Increases in Price Over Standard Varieties.**
10. **Greatest Profits.**

SOLID RED WINESAP—Fine Flavored, Long Keeper

SCARLET RED STAYMAN

BRILLIANT COLOR

We offer to the public the greatest strain of Stayman Winesap ever discovered. It is a true bud sport found in a Stayman Winesap orchard. Scarlet Red Stayman takes on bright red color weeks earlier than ordinary Stayman. Its ripening date is the same but can be picked earlier if desired.

A Ready Market at Top Prices

Scarlet Red Stayman is the best general purpose Apple for planting in the East. Its solid scarlet-red color and its bright attractive finish causes it to command highest market prices. The fruit is large and it produces bumper crops each year.

FOR JUMBO APPLE TREES, SEE PAGE 17

SOLID RED WINESAP

Old Winesap generally has plenty of color when planted in most sections, but for those growers who want a more solid red-colored Winesap, we recommend our new strain.

THE APPALACHIAN WINNER

RED YORKING

(U. S. Plant Patent No. 125)

The Red Yorking is a "bud sport", being a mutation of the famous York Imperial. This "bud sport" originated on a tree, grown with other York Imperial trees, in Harrisons' Nurseries and later sold to Mr. W. H. Allison, near Shippensburg, Penna., for use in planting a large orchard about 40 years ago.

OME OR COMMERCIAL ORCHARDS

SUPER RED McINTOSH
Superb Flavor

RED ROME BEAUTY
Quality and Appearance

HARRISONS' HI-QUALITY TREES

RED SPY—Bears Crisp, Juicy Apples

RED ROME BEAUTY

An improved Rome Beauty, identical in vigor and production. Color of fruit much brighter and solid red. Produces much higher percentage of fancy Apples and also superior in quality to the ordinary strain of Rome Beauty. Red Rome Beauty is renowned for bearing at a very early age, producing bumper crops of large size Apples. The tree is a vigorous, strong grower, exceedingly hardy. Pacific Coast strain.

GET YOUR ORCHARD STARTED THIS YEAR

SUPER RED McINTOSH

A new strain of McIntosh Red that starts coloring earlier and produces a larger percentage of extra fancy fruits. Super-Red McIntosh, when allowed to mature on the trees, is slightly darker in color than our regular improved McIntosh Red. Has all the best qualities of ordinary McIntosh and will mean larger profits for growers who have been unable to get sufficient color. McIntosh has been the favorite in the North; this new strain extends the planting area farther South. The most highly colored solid red strain available, regardless of price. We have some exceptionally good one-year trees and fine two-year trees to offer this season. Plant McIntosh strain of Apples for big profits, equally as good in home orchards as it is commercially.

RED SPY

A new "bud sport" from New England. Identical with the ordinary Northern Spy in fruiting habit. Extra large size fruit, strong, vigorous, hardy trees. Comes into bearing earlier than the ordinary strain. Colors early, nearly every Apple being solid red in color. We recommend it for commercial and home plantings in northern states.

BRIGHT RED JONATHAN

We searched the country over to find a strain of Jonathan that had more color than our selected Big Yield Strain of Jonathan. After thousands of miles of travel inspecting all of the new strains of this famous variety we found the one we had been looking for. It colors solid red several days earlier, otherwise it is identical with ordinary Jonathan. Growers who want more, deeper colored apples will find our Bright Red Jonathan the best colored strain obtainable.

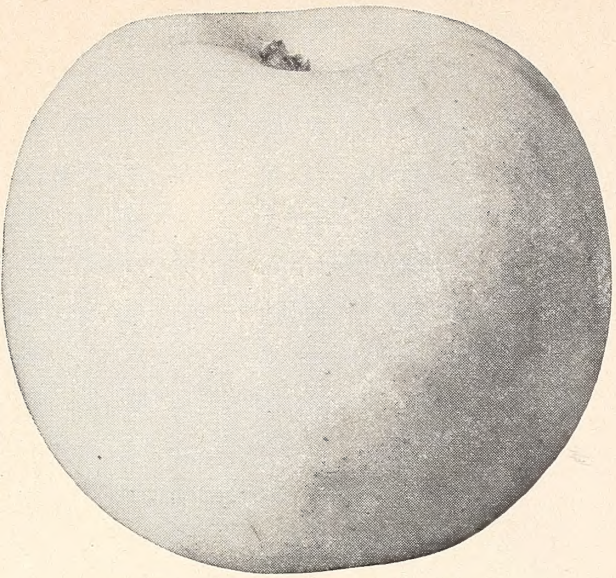
RED GRAVENSTEIN

Here is the Apple that has been overlooked by eastern growers. Old-fashioned Gravensteins have been grown in tremendous volume during the past twenty-five years, mostly in California, a few in the Eastern States. The old strain lacks the color to make it sell. Our new Red Gravenstein colors a solid bright red long before it is ripe. The quality of Red Gravenstein is extra good for an early Apple and its ability to carry to distant markets, even after it gets solid red, makes it command the highest prices.

BRIGHT RED JONATHAN—A Treat to Eat

NEW LOWER APPLE TREE PRICES SEE PAGE 3

RED GRAVENSTEIN
It's Solid Red



GRIMES GOLDEN
Big Crops—One of the Best Golden Apples

Harrisons' Maryland Grown Apple Trees are the Finest Quality in the World

GRIMES GOLDEN

Harrisons' Selected "Big Yield" Strain—Best Home Orchard Apple

Autumn, medium sized, golden yellow, tender, rich, aromatic, sub-acid, delicious, possibly the best flavored Apple known, and a good keeper. No better variety exists for eating raw or for cooking. Tree is very hardy and one of the heaviest bearers known, producing extra large crops annually. Excellent variety for a filler, as it comes into bearing very early. Grimes Golden is the best pollenizer known, especially for Stayman Winesap, Lowry, Baldwin, Cortland, Rome, Winesap, McIntosh and others. Be sure to include Grimes Golden in your orchard. IT IS EASY TO GROW.

YELLOW DELICIOUS *It's Golden!*

A golden yellow Apple with decided "Delicious", characteristics. Yellow Delicious has a remarkably good flavor, and is most popular for eating during the fall and winter months. Late September and January finds it at its best. Many people think it superior to the famous Delicious. Fall.

A Prolific Cropper at an Early Age

The Yellow Delicious tree is very thrifty, hardy, and a vigorous grower. It is renowned for its heavy bearing of fruit at a very early age. You can depend on a good yield of ripened fruit each year. Excellent pollenizer for all varieties.

DELICIOUS

Sometimes Called Stark Delicious—This is the Original Strain of Red Delicious

Of peculiar and distinctive shape; brilliant dark red, flesh fine grained, juicy, crisp and melting; flavor sweet, with a slight acid taste, with a delightful aroma, very highest quality. Fall. Harrisons' Triple Red Delicious is superior.

McINTOSH RED

Improved Type—Heavy Yielding Strain Preferred by Many Growers in the North.

Until the discovery of our New Super Red McIntosh our improved McIntosh Red was the best strain of McIntosh available. It colors solid red when climatic and soil conditions allow it to remain on the trees until it is mature. This heavy yielding strain is much superior to any strain of McIntosh, especially the dull striped kinds. If you do not have trouble getting sufficient color then we recommend you planting this time-proven, heavy yielding strain. McIntosh Red is very hardy and produces bumper crops each year. Generally considered as the best flavored Apple grown. Recommended for home or commercial orchard plantings.

OTHER GOOD APPLES

STAYMAN WINESAP **Big Yield Strain.** Without a doubt the heaviest yielding strain of Stayman Winesap obtainable. This strain yields bumper crops year after year. It colors to a good bright red and gets nearly solid red colored when allowed to stay on trees until fully ripe. This is an improved strain and is preferred by many growers in the East. Tested and time-proven by thousands of growers.

SMOKEHOUSE. Large Apples of superfine flavor, excellent for eating, yellowish green mottled with dull red and with many russet dots; flesh firm, crisp, juicy and aromatic. Tree large, vigorous and reliably productive.

WINESAP **An Apple favorite in Virginia.** Sometimes called Old Winesap and Virginia Winesap. Medium size, oblong, smooth, and a fine dark red—one of the best red colored Apples grown; flesh yellow, crisp, tender, very juicy, aromatic, firm and of excellent flavor. Very long keeper and considered the best cold storage variety, keeping until July. Strong grower; comes into bearing early. Our strain produces bumper crops of the larger sized Apples with plenty of color.

YORK IMPERIAL. Medium to large size, round, irregular, greenish yellow overlaid bright red; flesh tender, firm, crisp, of high flavor; wonderful keeper. Keeps in cold storage until June. Vigorous grower, strong and healthy; an unusually heavy bearer.

MAMMOTH BLACK TWIG (Paragon). Extra large in size and round; skin smooth, yellowish covered with deep red, the general effect being dark red; flesh tender, tinged with yellow, crisp, sub-acid, aromatic, fine flavor, of excellent quality, long keeper of great value. An important commercial variety in the East. Tree is vigorous and healthy, yields big crops. Plant Delicious or Jonathan as a pollenizer.

NORTHERN SPY. Large, bright scarlet-red, with yellow markings. Flesh juicy, rich, crisp, tender, aromatic and highly flavored. Tree a strong erect grower, very healthy, extremely hardy and a free producer. We offer an exceptionally heavy bearing strain that comes into bearing at an early age.

NORTHWESTERN GREENING. Large, round, greenish yellow; juicy, firm, good quality; splendid keeper, ships well. Attractive Apple when packed in bushels, demands good prices, excellent baking Apple. Should not be planted extensively because crops are not so certain, due to blossoming early. Trees are extremely hardy, vigorous, and bear very young.

RHODE ISLAND GREENING. The Popular Northern Apple. Large, greenish yellow; flesh crisp, juicy, quite acid, firm, fine grained, tender, and of very fine flavor and quality. An excellent keeper, a popular barrel Apple, brings good prices. Generally planted in New England, New York, Michigan and Canada, but not advisable to plant south of the Mason-Dixon line.

ROME BEAUTY. Large, round, red, flavor and quality above average.

RED LOWRY. Red bud sport strain, identical with its parent Lowry in all respects with the exception that it has very much higher red color and when matured full red color. It can be picked 2 to 3 weeks earlier than Lowry, due to its earliness in season and color. Interplant a few Grimes Golden as a pollenizer.

DOUBLE RED BALDWIN. A new dress for this old reliable variety. Solid deep red color, much earlier than ordinary Baldwin. The color makes it sell better. This new strain will bring new profits to the grower of Baldwins. Late fall.

CORTLAND. A new variety resulting from cross pollenization of McIntosh Red and Ben Davis, and inheriting the good qualities of each parent. Beautiful red Apple, approximately the same size and fine flavor of the McIntosh, but ripens 3 weeks or a month later. Good keeper.

GALLIA BEAUTY. A Rome Beauty type of Apple identical in every respect, except its earlier coloring qualities; recommended for commercial planting. Harrisons' have the genuine original strain of Gallia Beauty.

BALDWIN. Large, red, yields big crops; good keeper. Winter.

JONATHAN. Medium to large, red, juicy. Good keeper and an excellent shipper.

LOWRY. Beautiful mahogany-red, good, medium size, round oval shape, nearly sweet, mild sub-acid; excellent flavor, good shipper, long keeper, and sells at fancy prices in export as well as domestic markets. New popular commercial variety in Virginia.

CRAB APPLES

Priced on page 3.
Double Purpose—An Ornamental and Fruit Tree Combined.

HYSLOP. Deep crimson, large size, sub-acid and of good quality. Fine for all kinds of preserving, canning, etc., and good to eat fresh. Tree handsome.

HYSLOP CRAB APPLE
The Dual Purpose Tree

NEW LOWER APPLE TREE PRICES SEE Page 3

JUMBO SIZE PAGE 17

TRANSCENDENT. Yellow striped with red; good for eating fresh and fine for preserving. Best of all Crab Apples. Tree large; quick grower.

For Real Profit Plant Harrisons' Selected Strain Trees
Scientifically Propagated by America's Best Fruit Tree Growers

Biggest Peach Tree Values in America

HERE'S A "LOAD" OF REASONS WHY HARRISONS' PEACH TREES ARE BETTER

A—Our organization has over 65 years' experience.

B—Every step in growing under the personal supervision of the Harrison Brothers.

C—One hundred and fifty thousand trees in Harrison Brothers orchards from which our propagating trees are selected.

D—Use of modern methods for planting, cultivating and digging.

E—Over 4,000 acres of various types of soil.

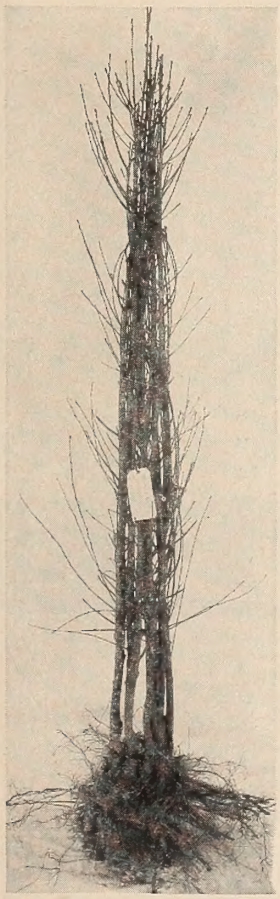
F—Ideal soil and climatic conditions.

G—Co-operation with leading horticulturists and experimental stations all over the world.

Very Early Varieties

DIXIRED. Very early, yellow, cling, medium size, round, bright attractive red blush; good flavor; prolific bearer. Ripens two weeks earlier than Golden Jubilee or about three days later than Red Bird. A new variety originated and introduced by the U. S. Department of Agriculture, Beltsville, Maryland. Its most outstanding commercial feature is that it is a good shipper and has been planted extensively in Georgia to meet the demands for the very early Peach market.

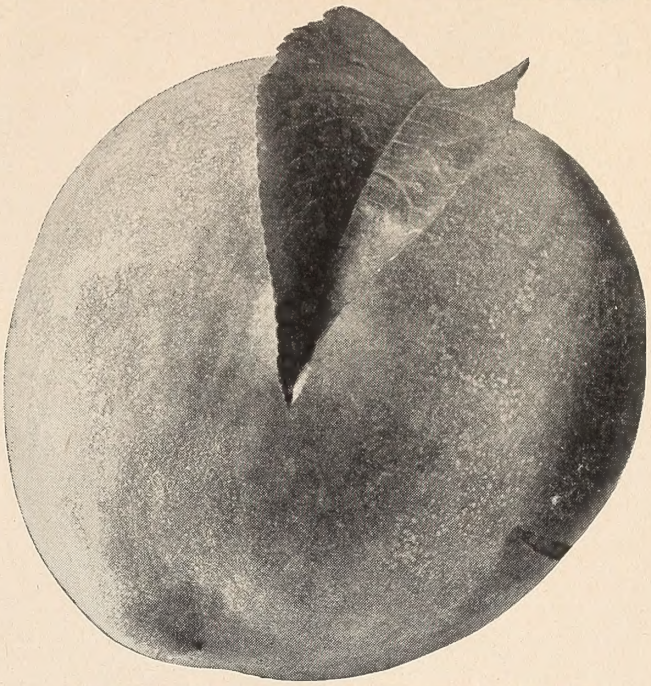
DIXIGEM. Early, yellow, semi-freestone, red blush, medium size, good quality. Ripens a few days sooner than Golden Jubilee. A new variety originated and introduced by the U. S. Department of Agriculture, Beltsville, Maryland. Extensively planted in Georgia.



One-Year, Budded, 4- to 5-Ft. Peach Trees Ideal Planting Size

GREENSBORO. White, freestone, extra large for such an early Peach. One of the handsomest, being a large, yellowish white with crimson cheek; flesh is white and of average quality. Exceedingly hardy, being an extra heavy, prolific bearer and adapted for wide variations in Peach regions.

Plant Large Peach Trees for Quickest and Best Results



RED BIRD—Earliest Large Peach, Commanding High Prices

RED BIRD

EARLIEST OF ALL PEACHES

Most Popular Extra Early Market Peach

Bright glowing color—"red as fire"—on a background of creamy white.

Handsome. Large—as large as Elberta. Ripens about 45 days before Elberta. Clingstone. Good to eat and fine for pies, cobblers and Peach pickles. Quality good, especially when left on the tree until they get fully ripe.

"Break all young-bearing records." "Break all bearing records." "One crop paid for my whole orchard." "Most profitable early Peach." "Sell fast as can ship." "Better shipper than Elberta."

JUNE ELBERTA. A big, handsome red and gold Peach, highly colored, excellent quality and a dandy home Peach, being a new variety. One of the earliest of the good yellow-fleshed Peaches, this semi-freestone variety quickly returns cash dividends before later varieties reach the market.

HARRISONS' HARDY PEACH TREES

We absolutely guarantee Harrison-grown Peach trees, variety for variety, to be as hardy or hardier than trees grown in any locality north of us.

HARRISON—A Name in Trees You Can Trust

HARRISONS' HI-QUALITY TREES

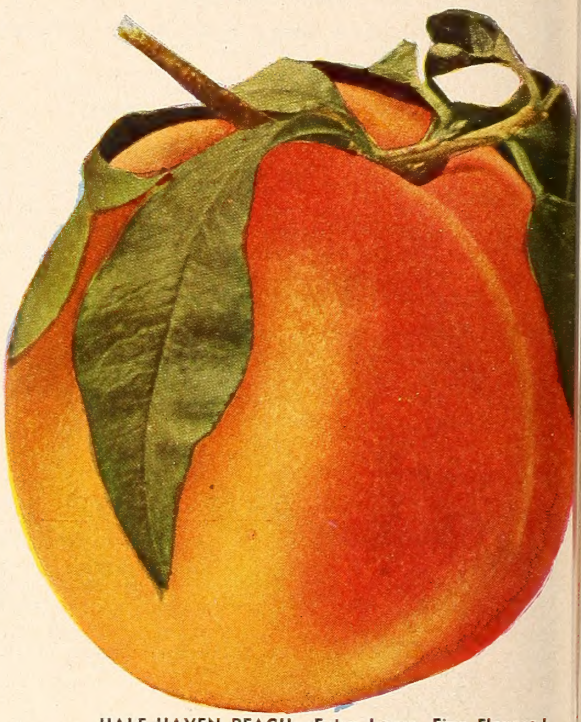
REDHAVEN PEACH
They Taste as Good as They Look

The Sensational
REDHAVEN

Tops All Extra Early Peaches, Earliest Yellow Freestone Peach

THE NEW EARLY RIPENING YELLOW PEACH THAT RIPENS ABOUT 10 DAYS BEFORE GOLDEN JUBILEE

The most promising early ripening yellow freestone Peach ever introduced. A cross between Hale-Haven and Kalhaven made at the South Haven, Michigan, Experimental Station. Brilliant red color with creamy yellow background, smooth skin, almost fuzzless. Reddens before it ripens. Bears heavy crops and should be thinned for best results. Every grower should try REDHAVEN. We have a good supply of genuine Redhaven trees this season. The demand for this variety is heavy, so order early.



HALE-HAVEN PEACH—Extra Large, Fine Flavored

HARRISONS' SUPER QUALITY FRUIT TREES BEAR HEAVIEST GROW FASTEST AND LIVE LONGEST

HALE-HAVEN

Early midseason. Ripens just after Golden Jubilee has been harvested and about 14 days ahead of Elberta. Yellow freestone, large, high red color, firm, fine flavored. It takes on red color early and the peaches show good red color several days before ripening, which gives it a distinct advantage for marketing. When allowed to ripen fully upon the trees its flavor is undoubtedly the best of any yellow Peach. Tree is an extra strong grower and produces a bumper crop of fruit each season. Very hardy in fruit bud. One of its parents is J. H. Hale, from which it inherits its large size and fine color. The other parent is South Haven from which it attains hardiness, large crops yearly and strong growth. It is the best variety ripening just after Golden Jubilee and should be planted in every orchard. Excellent for fresh eating and quick-freezing.

GOLDEN JUBILEE PEACH—Yellow, Excellent Quality

A LEADER and What a PEACH,
GOLDEN JUBILEE

Early. The supreme early yellow Peach. Peach orchardists for a century have been looking for an early Peach of high quality, fine flavor, yellow, freestone, attractive color and firm texture, and eventually they have found it in the marvelous Golden Jubilee. Fruit bright deep yellow, medium to large size, oblong shape. Good size, fine appearance and excellent quality with delicious flavor. Ideal for roadside stands and home orchards, also commercial orchards for nearby city shipments. It ripens about ten days earlier than Hale-Haven.

EARLY HALE-HAVEN

(U. S. Plant Patent No. 325)

RIPENS A WEEK EARLIER THAN HALE-HAVEN

A bud sport of the well known Hale-Haven, retaining all its characteristics such as large size, high red color before ripening, extra fine flavor and yet ripening a week earlier. Tests show it will keep as well as Hale-Haven.

HERE IS THE HIGHLY FLAVORED EARLY WHITE FREESTONE PEACH YOU HAVE BEEN LOOKING FOR

CUMBERLAND

An outstanding favorite early white Peach. Is a comparatively new, white, nearly freestone variety that was developed by the New Jersey Experimental Station. The fruit resembles Belle of Georgia, both in appearance and quality, although it ripens about the same time or a little before Golden Jubilee.

A GREAT PEACH COMBINATION—REDHAVEN, GOLDEN JUBILEE, HALE-HAVEN

NATIONAL Reputation

J·H·HALE

Originated by the late PEACH KING

MIDSEASON—Ripens 2 to 3 days before Elberta.

Original Strain J. H. HALE

Our "Hales" are propagated direct from the original strain, the variety originated by the late J. H. Hale of South Glastonbury, Connecticut and Fort Valley, Georgia, known as the Peach King of America. There are many types and strains of J. H. Hale grown, but the only one worthy of commercial importance is the original strain, which is the extra large, round, highly colored Peach. The original strain necessitates cross-pollination and it is necessary, for proper results, to plant a few Belle of Georgia or Elberta or Hiley or any other variety of Peaches along with Hale for cross-pollenization.

Extra Large Size

Yellow, freestone, extra large, beautiful red coloring, firm and of the highest quality and enticing flavor. J. H. Hale ripens about two or three days prior to Elberta. Prices on pages 7 and 11. Jumbo size, page 17.

J. H. HALE—Giant Size, Enticing Flavor

BELLE OF GEORGIA The Finest Flavored Peach

Belle of Georgia

The Queen of Flavors

THE BEST WHITE MID-SEASON VARIETY

Ripens midseason. Color creamy white with red cheek. Flesh white, red near pit. Size large, freestone. Belle of Georgia, for some time, has been recognized as the best all-around white Peach on the market. It is easily the best shipping white Peach of its season, ranking almost with Elberta in this respect. Because of its many desirable qualities, it has become standard in the large commercial orchards, and you can find few orchardists of any importance who do not have a block of Belle in their orchards. These men know from experience just what varieties pay best and endorse it highly.

- Fruit Large

- Very Hardy
- Easy to Grow

HARRISONS' MARYLAND GROWN TREES

SULLIVAN EARLY ELBERTA

An Early Ripening Red Bud Sport of Elberta
MIDSEASON YELLOW—FREESTONE

Here is the early ripening strain of original Elberta growers have been wanting. Discovered by Mr. Sullivan in a Georgia orchard. Identical to Genuine Elberta in every characteristic except it ripens about seven days earlier. Yellow freestone, firm, juicy, rich, good flavored. Equally attractive as Elberta and is a good keeper. Good for either home or commercial planting.

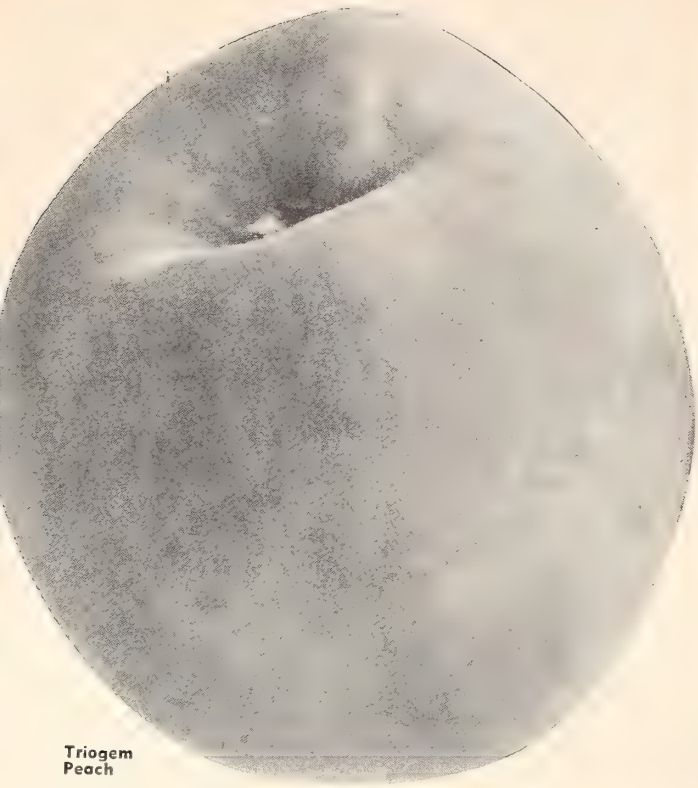
10 OUTSTANDING REASONS FOR PLANTING SULLIVAN EARLY ELBERTA

1—Size: Large to Extra Large.
2—Yellow Freestone.
3—Rich, Sweet Flavor.
4—Brilliant Red Colored with Golden Yellow Background. Excellent Long Distance Shipper.
5—Tree Vigorous Grower.
6—Bears Large Crops Annually.
7—Colors a Week Earlier Than Elberta.
8—Ripens Slowly After Being Picked.
9—Brings Highest Market Prices.
10—Completely Tested.

Harrisons' Maryland Grown Peach Trees are the Finest Quality in World

SULLIVAN EARLY ELBERTA PEACH The Best New Midseason Variety

Harrisons' Peaches
ARE A COLLECTION OF THE WORLD'S BEST



Triogem Peach

Stark Early Elberta

Early midseason. Yellow, freestone, large, lemon-yellow with a dark cast, blushed with vivid red. Beautiful appearance, high quality, being somewhat similar to Elberta, although a trifle better flavor; rich golden tender flesh, yet firm and has a delightful flavor; excellent for canning.

HARRISONS' Super-Selected Strain Varieties Bear Bigger and Better Crops of Peaches.

INCREASES YOUR PROFITS AT NO EXTRA COST

TRIOGEM (N. J. 70)

Developed by the Master Plant Breeders of New Jersey
MEDIUM TO LARGE, FIRM, ATTRACTIVE

Ripens early, medium to large, oval, firm, high quality, high red color over entire Peach, yellow flesh; freestone, smooth, nearly fuzzless like J. H. Hale, one of its parents; colors several days in advance of its ripening, being 2 days later than Golden Jubilee, or 3 weeks earlier than Elberta. This, combined with its very slow rate of softening, makes it an ideal Peach for commercial growers. Hangs well to the tree after the Peaches become firm ripe. When picked hard to firm it is a good long distance shipper. This is the best commercial Peach ripening at this period, and is being planted now by some growers in preference to Golden Jubilee. Considered as the best new variety of Peach so far originated and introduced by the New Jersey plant breeders.

A REAL PROFIT MAKER

TRIOGEM has been fruited commercially in New Jersey and Maryland for several years. During this time it has topped all varieties in price on the New York and Philadelphia markets which ripen at this time during the summer. Several large commercial orchards have been planted with Triogem and its popularity is increasing each year.

CHAMPION. A Good Home Peach. White, freestone, very large; creamy white with red cheek, sweet, juicy, very high flavor. Champion has lost its past commercial importance because it will not carry satisfactorily under refrigeration, but as a home garden or a roadside Peach, it is one of the best. Tree is hardy, large grower and productive.

ROCHESTER. Early midsason. Yellow, freestone, large, covered with mottled red blush; flesh yellow stained with red at pit, very good quality, prolific bearer. One of the best early midseason yellow freestone Peaches for nearby markets, and highly desirable for canning.

VEDETTE. Early yellow freestone. Globular; large; good red color; good flavor. Canadian variety of the Elberta type. Ripens about six days later than Golden Jubilee. Adapted to Southern as well as Canadian Peach districts.

SUNHIGH. (N. J. 82.) A large, red, bright, smooth Peach which colors well all over before it ripens, softens slowly, making it a good commercial Peach. Flesh inclines to adhere to the pit when hard ripe. The variety seems to do best in hilly sections and requires thorough summer spraying. The fruit is large, roundish, thick-skinned, very uniform in size. Color deep yellow with red cheek. Stone is free. Ripens approximately 18 days before Elberta, at a time to bring high market prices.

HILEY. White. Early midseason. Bears huge crop of fancy Peaches. Freestone, medium size, highly red colored and is a very handsome Peach of exceptionally good flavor. Tree is strong grower, very healthy and an extra heavy bearer. You can depend on Hiley to bear heavy crops year after year. The marvelous color and wonderful flavor have made it popular on the markets. Hiley resembles Belle of Georgia but ripens about 10 days earlier.

SOUTH HAVEN. Early midseason. Yellow, freestone, large, handsome, uniform size, delicate flavor, ripens about 15 to 18 days ahead of Elberta. Tree is very hardy, good grower, and a consistent heavy bearer, adapted to cold climates; produces bumper crops in mild climates.

VALIANT. Early midseason. Seedling of Elberta. Yellow freestone, productive. A new Canadian variety.

SUMMERCREST. (N. J. 94.) Midseason, yellow, freestone, large with red blush and sweet flavor. Trees exceptionally vigorous, fruit ripens the same time as Belle of Georgia, which is a few days earlier than Elberta. Popular in New Jersey where it is known.

GOLDEN EAST. (N. J. 87.) Early midseason. Very large, high red color, yellow, freestone. Very good flavor. Ripens 15 days earlier than Elberta. Good roadside market and commercial Peach.

For Greater Profits From Your Land Plant Trees

HARRISONS' HI-QUALITY TREES

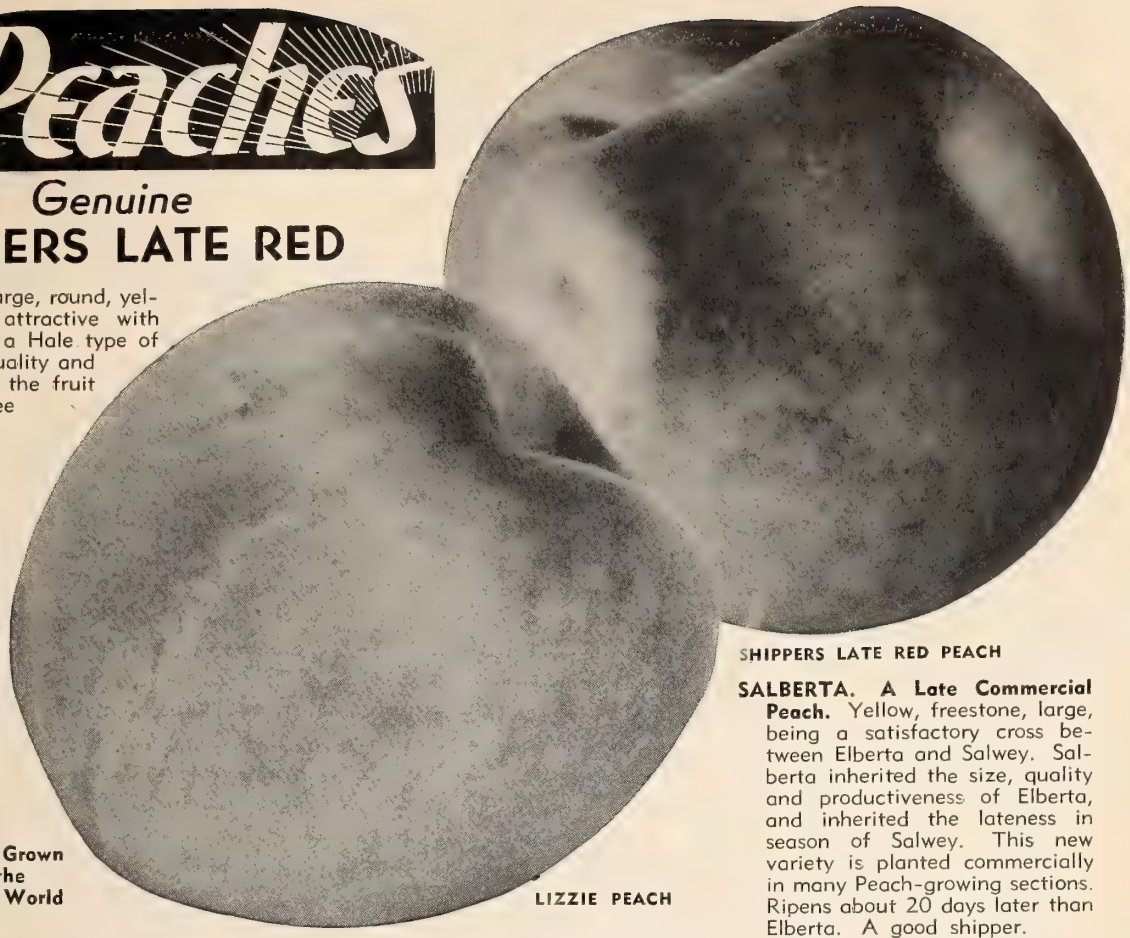
HARRISONS' HI-QUALITY TREES

Peaches

Genuine SHIPPERS LATE RED

Midseason-Late. Large, round, yellow, freestone, very attractive with high red color. It is a Hale type of Peach, having good quality and brings high prices on the fruit markets. Ripens three days later than Elberta. A good commercial Peach as it is a prolific bearer of large size, highly red-colored Peaches and is a favorite wherever planted. Harrisons are growing the original strain of Shippers Late Red which is far superior to other types and strains of this variety. Should be planted in every commercial orchard, as well as home orchards. Dependable trees which are absolutely "true to name."

Harrisons' Maryland Grown Peach Trees are the Finest Quality in the World



SHIPPERS LATE RED PEACH

LIZZIE PEACH

SALBERTA. A Late Commercial Peach. Yellow, freestone, large, being a satisfactory cross between Elberta and Salwey. Salberta inherited the size, quality and productiveness of Elberta, and inherited the lateness in season of Salwey. This new variety is planted commercially in many Peach-growing sections. Ripens about 20 days later than Elberta. A good shipper.

RIO-OSO-GEM. Late. See page 13 for description and prices. Starts to ripen 10 days later than Elberta.

AFTERGLOW. (N. J. 84.) Late midseason. Yellow, freestone, large, round with high red blush, ripens about 3 to 4 days later than Elberta.

Late Ripening Varieties

LATE ELBERTA. (Gemmer's Late Elberta.) Late, yellow, freestone, large, high red color, fine quality, good shipper. Is a typical Elberta in fruit and tree characteristics, but ripens 8 to 12 days later than Elberta of the original strain.

LIZZIE. Late, distinct type of Elberta, very large, freestone, yellow, which ripens 24 to 26 days later than Elberta, having same prominent coloring characteristics as its parent.

VERY LATE RIPENING VARIETIES

KRUMMEL'S (Krummel's Late October). Yellow, freestone; extra large, round, deep yellow with a blush of carmine on the sunny side—fine flavor.

SALWEY. Very late. Yellow, freestone.

WHITE HEATH CLING. Large, late cling, fine flavor, good home Peach.

Elberta Tops in Peach Sales

Sensational Standard Peach of the World

It's the Greatest Money Maker

(Original Strain) **ELBERTA**

Internationally Famous—The Standard by Which All Other Peaches are Judged

Midseason. Yellow, freestone. Fruit is large to extra large; golden yellow with brilliant shades of red; firm, juicy, rich, sweet and good flavor. Elberta has the greatest international reputation of any Peach. It has been the standard for all other Peaches almost since the date of its introduction. The coloring of Elberta is practically perfect. The rich, yellow skin is almost entirely covered with dark red blush upon the sunny side. The attractive appearance and uniform large size serve to sell it almost on sight. We offer original strain trees which is the best strain obtainable.

Save Disappointment—Plant Only Harrison ORIGINAL STRAIN Elberta

Today, there are more than seven distinct types and strains of Elberta, bearing fruit in the orchards of this country. To compare the various sizes, shapes, texture and red coloring of these Elberta with those grown **"on original strain trees"** gives sufficient reason why they sold this year at a premium of $1.00 to $2.00 per bushel on the New York and other leading fruit markets.

They Cost No More

Why plant degenerated strains of Elberta when you can plant Harrisons' heavy yielding original strain trees. They can be purchased at the lowest price that high quality trees can be produced for. It is true trees, size by size, can be produced cheaper by budding them from non-fruiting trees in the nursery row, but this method causes degeneration. Trees grown in this manner will be lighter croppers and require a longer time in coming into bearing.

JUMBO SIZE TREES PAGE 17.

FOR NEW LOWER PEACH TREE PRICES SEE PAGE 7 or 11.

BRACKETT—The Beautiful Red Peach With Handsome Orange-Lemon-Colored Background

ELBERTA
Original Strain
The Leading Peach
America's No. 1 Peach—Elberta. There are more Elberta Peach trees in bearing than any other variety on earth.
FOR JUMBO PEACH TREES, SEE PAGE 17.

Brackett

Mid-Season Late

1. Size
2. Quality
3. Color

A Profitable Commercial Variety Slightly Later Than Elberta

Brackett is a comparatively new commercial Peach in some sections but wherever tried it has given uniformly good results. During the past thirty years we have planted many thousands of this variety in our own orchards and they have given good results.

The fruit is rich yellow, with dark carmine cheek. The size runs fully as large or larger than Elberta. Flesh is deep yellow, extremely juicy and is absolutely freestone. Fruit is much better flavored than Elberta. Good shipper.

Popular On the Markets

Brackett commands unusually high prices on the market and often outsells Elberta twenty-five to fifty cents per bushel. We know the grower who needs a Peach ripening slightly later than Elberta will make no mistake in planting Brackett.

Plant Harrisons' Original Strain

HARRISONS' were the first to popularize this great variety and distribute it throughout the Peach-growing sections. We offer trees that are propagated direct from the original strain and they are sure to produce results.

New! Exclusive! Sensational! RIO OSO GEM

The World's Greatest Peach

The sensational Peach which has caused the greatest amount of favorable reports of any Peach introduced in a half century is that marvelous, big Peach, the World's largest, being a patented variety, the Rio-Oso-Gem, U. S. Plant Patent No. 84. It has now been fruited in all Peach-growing districts in the United States and Canada, and has definitely proven itself to be the best all-around commercial Peach. Ask any man who has grown the Rio-Oso-Gem.

THE BEAUTIFUL GLORIFIED PEACH

This beautiful Peach has a brilliant, bright red color, running around 95% good red, whereas they are easy to pack as U. S. Fancy grade. The size of the Peach is all that anyone can expect, as many of these Peaches will run a pound or more in weight and in many instances have been reported that the crop would average three-quarters pound per Peach. The flaming, beautiful bright red color in the cheek, along with an attractive orange-colored background, has earned it an envious reputation as being the prettiest Peach grown.

BEST FLAVORED COMMERCIAL PEACH

The unexcelled flavor is better than that of J. H. Hale and Elberta. The enticing flavor makes it a very popular Peach for fresh eating. The rich flavor is retained when canned or preserved. Now recognized as the leading canning Peach in California. Rio-Oso-Gem is the only Peach which can be processed by quick freezing and still retain its firm texture, with its beautiful, rich, golden yellow flesh and the same flavor as when picked. We have quick frozen Rio-Oso-Gem Peaches which were picked and processed on September 1, 1944, which are still holding up in excellent condition.

RECORD BREAKER FOR LONG DISTANCE SHIPMENTS

The Rio Oso Gem is the best of all Peaches for long distance shipments and the fruit will stand up longer after being picked than any other variety of Peach in existence. This stupendous variety adapts itself exceedingly well for shipments in refrigerator cars pre-cooled, under standard refrigeration for transcontinental hauls. This is the greatest Peach for shipments on trucks under ventilation, as its hard, firm texture insures arrival in excellent condition.

Destined to be America's Leading Commercial Peach.
Sample of RIO-OSO-GEM Grown in Harrisons' Orchards at Berlin, Maryland. Sold only by Harrisons' Nurseries in numerous states.

RIO-OSO-GEM

Ideal for Home Orchards

Ripens 10 days later than Elberta. Rio-Oso-Gem is a very prolific bearer and dependable annual cropper.

RIO-OSO-GEM IS NO EXPERIMENT

Glowing reports have been received from every Peach growing district of the United States and Canada. During the past two years there have been more acres planted to Rio-Oso-Gem than any other Peach in California, which is America's largest Peach area, even exceeding Elberta, the standard Peach of the World.

PROLIFIC BEARER—RIO-OSO-GEM PEACH

READ WHAT FELLOW GROWERS SAY

We have received several hundred complimentary letters highly praising the Rio-Oso-Gem Peach, U. S. Plant Patent No. 84, from all over the United States, some of the typical remarks are from people such as Fussell-Graham-Alderson Company, Forest City, Arkansas: "We have about 1,000 of Harrisons' Rio-Oso-Gem Peach trees from which we have been harvesting the largest and prettiest Peaches I ever saw. We sold our Elberta Peaches, U. S. No. 1 grade at $2.25 per bushel and we had no trouble in picking the Rio-Oso-Gem Peaches 2¼ inches and up which we sold at $4.00 per bushel, f. o. b. Forest City, Arkansas."

Mr. H. Frank Smith, Prop. Hillcrest Orchard, Dover, Arkansas, writes: "This year's crop convinces me that the Rio-Oso-Gem, U. S. Plant Patent No. 84, i sthe very finest Peach and has certainly proven such with me. It has very fine qualities as a canner and people go wild about it. It always brings the highest prices for me."

Mr. Charles Heilig, Sewell, New Jersey, Gloucester County, said that the most handsome and the best Peach of the forty years' experience that he has had was his first crop of Rio-Oso-Gem on 400 trees, three years old, from which he picked during early September 324 bushels and which he sold at an average price of $5.00 per bushel at his farm, grossing him more than $1,600.00 from this very young orchard. He bought 620 Rio-Oso-Gem trees for planting November, 1948, and said his future plantings would be Rio-Oso-Gem.

AMERICA'S MOST FAMOUS PEACH

Mr. E. R. Connor, fruit grower and broker, of Stephen City, Virginia, in the famous Frederick County fruit section, was exceptionally well pleased with his first crop of Rio-Oso-Gem Peaches on his three-year-old trees which he picked during early September. From his 400 trees, three years old, he picked a 300-bushel crop for which he was offered $3.75 per bushel, f. o. b. Stephen City, Virginia, for the entire crop, but he refused the sale so that he could sell the Peaches in smaller quantities at high prices to his customers throughout the Shenandoah Valley of Virginia and nearby cities. He planted 100 more trees two years ago which had a few Peaches on them this summer. Connor states he wishes he had 5,000 Rio-Oso-Gem Peach trees, U. S. Plant Patent No. 84, planted in his Orchard instead of 500.

RIO-OSO-GEM IS A "MUST" FOR EVERY GROWER

There are still big cash profits in Peaches, provided you grow the right varieties and in the near future you will see where the Rio-Oso-Gem, U. S. Plant Patent No. 84, will be getting more prominence each year. It is predicted that within a decade or so, it will be the most extensively planted commercial Peach in America.

RIO-OSO-GEM PEACHES BRING DOUBLE PRICES COMPARED TO MOST VARIETIES

Every year the Rio-Oso-Gem brings highest prices of any variety on the American markets.

HARRISONS' HI-QUALITY TREES

HARRISONS' AMERICA'S BEST VARIETIES famous PLUMS

ABUNDANCE. Early, large, color pinkish red changing to darker red, with thin bloom. Yellow flesh. Very juicy, sweet and tender, pleasantly aromatic. Hardy, very productive. Adaptable to a wide diversity of soils and climates.

BIG MACKEY. Late. Largest and best Damson, being an improved strain of Shropshire Damson. Freestone. Deep purple, juicy, rich flavor; small stone. Fine for preserving. Easy to grow, produces immense crops. Should be planted in every orchard. Large size fruit makes ideal jams, preserves and jellies. An excellent variety for fresh fruit shipments to city markets, always demanding high prices.

BURBANK. Early, about one week after Abundance. Large, cherry-red with thin lilac bloom. Flesh amber-yellow with rich, sugary flavor; high quality and very productive. A product of Burbank, the master plant breeder. Should be in every orchard.

FORMOSA. A midseason variety of excellent and prolific bearing qualities. Large greenish yellow, overlaid with red. Alternate bearer. Heavy cropper.

ITALIAN PRUNE (Fellenberg). Late, medium size, freestone, dark purple, delicious. Fine for drying.

GRAND DUKE PRUNE. Late. Commercial variety. Purplish black, juicy, sweet, excellent for cooking.

LOMBARD. Midseason. Medium size, showy purplish red fruit, excellent quality for canning, cooking, preserving or spicing. Prolific cropper.

MONARCH. Very large, bluish purple. Juicy, golden green flesh. Bears early and abundantly. Excellent for market.

BRADSHAW. Very large, fine early Plum; dark violet-red, juicy and good. Very productive; valuable for market. Quality is excellent, color attractive. Good canner.

METHLEY A recent introduction which is rapidly gaining popularity due to its fine quality and handsome appearance. The fruit is medium to large in size, reddish purple in color with red flesh. It is juicy, sweet and of distinctive flavor. The tree is vigorous and upright in growth habit. Does well on most types of soil and is a heavy annual bearer.

RED JUNE. Early, medium size, garnet-red color, thin bloom, flesh light yellow, somewhat meaty, sweet, aromatic. Trees are healthy, hardy and productive. An early market Plum.

SANTA ROSA. Early. Fruit very large size, round, purplish red, flesh reddish near skin, firm, juicy, and has a pleasant tart flavor of exceptionally high quality.

SATSUMA. Midseason. Best flavored semi-freestone, blood-flesh Plum known. Large size. Flesh dark purplish red, juicy, sweet, possessing an alluring aroma. Originated by Luther Burbank.

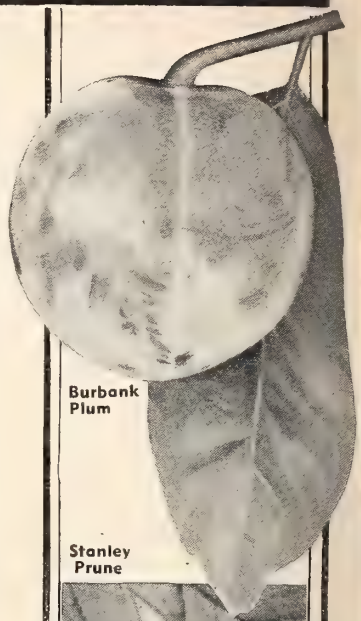
SHIRO (Early Gold). Early. Fruit is very large, golden yellow, semi-transparent, covered with bright scarlet-red blush.

SHROPSHIRE DAMSON. Late, medium size, dark purple. Very productive. The best for preserving. The popular old-fashioned Damson variety.

STANLEY PRUNE. Midseason. Freestone, large, new Prune variety, outstanding characteristics. Considered best for cooking and fresh fruits.

WICKSON. Midseason. Extra large size, color dark red, thin bloom, flesh amber-yellow, firm, sweet.

YELLOW EGG. Late. Large, golden yellow. Good for cooking. Largest and handsomest of yellow Plums.



Burbank Plum

Extra Good Fruits for The Home Garden

APRICOTS

The Apricot is one of the most delightful luscious fruits grown, when eaten fully ripe and fresh from the tree. It is remarkable that such a rich and beautiful, golden, sweet fruit is not planted more, especially since it ripens just after the early Cherries and before the best early Peaches.

ALEXANDER. Early, prolific, freestone, orange, with red blush; very juicy and sweet flavor. A large, prolific sort that will withstand adverse weather conditions. This variety deserves greater popularity. The best.

EARLY GOLDEN. Pale orange, juicy and sweet. Is a hardy prolific bearer; ripens first of July.

SUPERB. Very good quality. Fruit is beautiful, light salmon colored, best of the older varieties. Tree is large, very thrifty, hardy and is extremely productive in fruit.

MOORPARK. Midseason. Large, freestone; flesh yellow, sweet, juicy. Good for canning or drying. Dwarf type, medium size tree.

APRICOTS CAN BE GROWN ANYWHERE PEACHES SUCCEED

APRICOTS—A Real Treat

Red June Plum

NECTARINES

Delicious for Eating

There is a mistaken idea that the Nectarine is a cross between the Peach and something else, while it is really nothing more or less than a smooth-skinned Peach. The melting, juicy texture of the Nectarine and its delicious flavor furnishes one of the most delightful fruits for eating during the summer. Plant a few trees in your home orchard this year.

HUNTER. Large, round, yellow, freestone.

SURE CROP. Very vigorous and productive. The fruits are large, roundish, white and overlaid with very attractive red. Very pleasing flavor.

PRICES ON APRICOT AND NECTARINE TREES

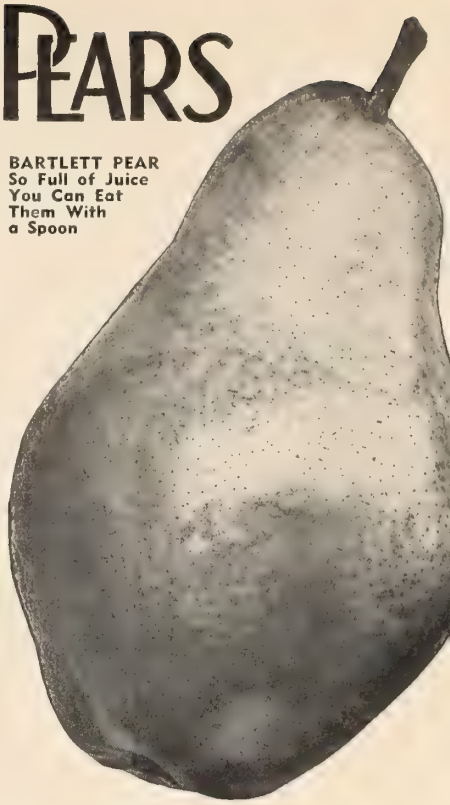
NECTARINES ARE DELICIOUS

Fancy BARTLETT PEARS ALWAYS TOP

1—Superb Quality
2—Heavy Cropper
3—For Home or Commercial Grower
4—For Eating and Canning
5—Bear Early
6—A Harrison Brothers Specialty

For home, for canning, for market, the best. Ripens during summer.

A golden colored Pear, with a red cheek on most specimens. Bartlett mellows and is excellent for eating very early in the fall, yet when picked a week before it is ripe, and properly stored, will keep till late. Flavor delicious and musky; flesh buttery, rich and juicy. One of the finest Pears that grows, to eat raw. A mingling of the flavor of Bartlett Pear and Quince gives about the finest taste of any food this world's folks have. Bartlett trees bear early, produce enormous crops, and are not nearly so subject to damage by insects and disease as some other sorts. The trees do especially well with high culture.

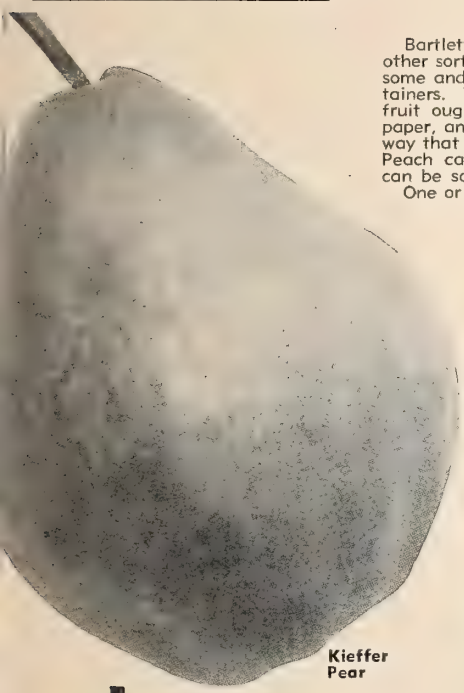


BARTLETT PEAR
So Full of Juice You Can Eat Them With a Spoon

Fancy Bartletts Bring Highest Prices

Bartlett Pears always sell on the markets even when other sorts are not in great demand. The fruit is so handsome and appealing that it pays to pack it in fancy containers. Bushels or bushel boxes are best adapted. The fruit ought to be sorted and graded, wrapped in tissue paper, and arranged in the container practically the same way that you pack Apples. Pears are sometimes packed in Peach carriers, and sell to good advantage. Plain fruit can be sold without wrapping, in small baskets or boxes.

One or two Bartlett Pear trees in the city yard will furnish a considerable amount of fruit; a half dozen will supply the family with fresh fruit and a surplus for preserving.



Kieffer Pear

KIEFFER

SURE CROPPER—EASY TO GROW

FOR JUMBO PEAR TREES SEE PAGE 17

Of all the Pears, Kieffer is the most easily grown. Trees are vigorous, exceptionally hardy and thrive on varied soils in any climate. Kieffer and Koonce are the only Pears that can be successfully grown in such southern states as Alabama, Mississippi, Louisiana, etc., and yet it is the leading commercial Pear in Canada. Kieffer is blight-resistant, and can be successfully planted in large orchards.

This fruit is large to very large size; skin yellow, with light vermilion cheek; flesh yellowish white, very juicy. Noted for being a long time keeper. Most popular canning Pear.

BEURRE BOSC. Large size, fine quality, brings highest market price. Late.

BEURRE D' ANJOU. Large, green in color, somewhat yellow when ripe, buttery, melting, rich, vinous, good flavor. Tree vigorous, hardy, prolific bearer. Very late.

CLAPP'S FAVORITE. Large size, hardy and very productive. Thrives where other varieties fail. Very early.

DOUGLAS. Very resistant to blight. A winter Pear of wonderful quality, golden yellow with a faint blush on the cheek. Bears early.

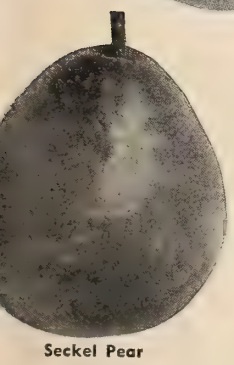
DUCHESS. Very large, dull greenish yellow. Tree somewhat dwarf but a dependable bearer. Late.

GORHAM. Flavor is sweet and vinous with a very marked and pleasing aroma. Flesh is white, tender, buttery and juicy. Valuable for dessert and canning. New.

KOONCE. One of the earliest Pears, free from blight, does not rot at the core like many early Pears. Fruit is yellow, medium to large, delightful flavor. Very productive. Extra good for southern states.

SECKEL. A beautiful and delicious little Pear. One of the richest and highest flavored Pears grown. Tree dwarf, bears prolific crops. Late.

WORDEN SECKEL. A seedling of Seckel. Superior in size and color. Mid-season.



Seckel Pear

QUINCE

ORANGE. Late, large, bright yellow, excellent flavor, productive and rarely fails to produce a crop. Best canning variety. We offer the Wayne County (New York) strain.

MONTMORENCY—The Best Sour Cherry, Easy to Grow

NAPOLEON (Royal Ann) Sweet Cherry

FOR JUMBO CHERRY TREES, SEE PAGE 17

BLACK TARTARIAN SWEET CHERRIES—Juicy, Rich Flavored

SWEET CHERRIES

What fruit is more pleasing than the Sweet Cherry? The ideal fruit to plant in the back yard. We have a good supply of first-class trees in the following varieties:

BING. Very large, dark brown, flesh firm, sweet. Midseason.
BLACK TARTARIAN. Very large, sweet, purplish black color, juicy, rich flavor, heavy bearer and most profitable sweet variety grown. Early.
GOLDEN WAX. Large, yellow, fine flavor. Bears bumper crops. Easily grown. Midseason.
GOVERNOR WOOD. Large, light yellow, marked with red, sweet flavor.
LAMBERT. Extra large, sweet, jet black, very popular. Midseason.
NAPOLEON. (Royal Ann.) Large, pale yellow, bright red cheek, sweet, excellent flavor, prolific bearer. Midseason.
SENECA. Resembles Black Tartarian, but ripens two weeks earlier, rich sweet flavor.
SCHMIDT. (Schmidt's Bigarreau.) Large, sweet, deep black, tender, fine flavor. Midseason.
WINDSOR. Large, sweet, almost black, fine quality. Valuable late variety.
YELLOW SPANISH. Large, sweet, yellow with red tinge. One of the most beautiful and popular of the light-colored Cherries. Heavy bearer. Midseason.

HANSEN'S IMPROVED

Bush Cherry

An ornamental shrub producing delicious fruit. Very easy to grow, highly productive and hardy. The fruit is large, black and sweet, wonderful to eat right from the bush. Introduced by Dr. Hansen of the South Dakota Experimental Station. Leaves are silvery green, turning to red in autumn. Attractive white blossoms add to landscape effect. **3-Year Bushes, Bearing Size, $1.50 each; 10 for $13.00.**

HARRISONS' BIG YIELD GRAPE Vines

BEAR BETTER CROPS OF BETTER FRUIT •

Harrison Brothers Selected Varieties Grapes

AGAWAM. Red. Midseason. Large, thick skin, aromatic flavor. Vines strong, rank grower. Hardy and productive. Ripens with Concord.

CACO. Red. Midseason. Fruit is very large and handsome. A rich wine-red color. Not a very rank grower and a shy bearer.

CATAWBA. Red. Very late. Large. Flesh pulpy with rich, vinous flavor. Quality good. A very desirable variety.

DELAWARE. Red. Early midseason. Bunch and berry good size, compact, flesh juicy, very sweet and refreshing. Vine very hardy and productive. A slow grower. Requires rich soil, good culture, close pruning.

FREDONIA. Blue. Very early. Originated by New York Experimental Station. The bunch and berry are large, with excellent, juicy, delicious flavor. Vigorous and productive. Ripens fully ten days before Moore's Early.

NIAGARA. White. Midseason. Best of the standard light colored Grapes. Bunches of large greenish white berries change to pale yellow when fully ripe. A rank grower and very productive. Popular with vineyardists and home gardeners in the North, as well as the South.

WORDEN. Blue. This excellent Grape is as hardy, healthy, vigorous and productive as Concord, of which it is a seedling, but better in quality. It is sweeter, larger in bunch and berry. Several days earlier. Valuable for garden and vineyard.

GRAPES—One of the Easiest Fruits to Grow in the Home Garden

For Bigger and Better Crops Plant

CONCORD

Harrisons' Super Strain

Blue, midseason. The most popular and extensively planted Grape in America. It adapts itself to varying conditions and is grown in most every state in the union. Large, compact bunches of dark purplish black colored berries. The berries are covered with a rich bloom, skin is tender, but is sufficiently firm to carry to distant markets; flesh is juicy, sweet and tender.

Exceptionally Heavy Yields

Concord is a very vigorous grower, hardy and very productive. It ripens during midseason, and is rated as the best money-making commercial variety.

Nut Trees are a Lifetime Investment - Buy the Best

NEW GIANT Cultivated Blueberries

- Profitable to Grow
- Delicious Berries
- Very Ornamental

BLUEBERRIES—Ornamental as well as Fruitful
Jumbo Size—Bear First Year Planted

Once Planted Lasts a Lifetime

Blueberries are not only the largest money makers of all time commercially, but are also one of the easiest fruits to grow. The berries bring up to 75c per quart—$400.00 per acre the third year. They are exquisitely mild, sweet and delicious, and bring highest prices on the market. The demand for Blueberries is practically unlimited. A planting lasts a lifetime with proper care and the plants will pay for themselves their first crop. A few bushes planted in the shrub border and in the garden will be sufficient to supply you with berries for years.

Blueberries—Easy to Grow

Set the bushes 5 by 7 feet apart in moist, acid soil. If your soil is sweet, it may be made acid by mixing with it a little quantity of acid peat, rotted leaves and pine needles, or similar material. Fruit ripens over a period of several weeks. Plant two or more varieties so as to insure proper pollenization.

Very Ornamental

As an ornamental shrub the Blueberry cannot be surpassed. Full of lovely pink blooms, which open to bell-shaped, white flowers in June. Plants are compact, low growing, having waxy green leaves which turn red during the fall. Twigs are reddish brown and very showy during the winter.

SPECIAL JUMBO SIZE BLUEBERRY PLANTS

Have already fruited in the nursery. Ready to bear big crops of luscious berries on your own grounds and are as easily grown as a shrub or Rose bush. You can pick delicious berries the first season planted, and each year they will produce a larger crop with very little attention. We only have a few hundred of these Jumbo sized plants to offer. Can supply in the following varieties only: Cabot, Rancocas, Concord, Rubel, and Jersey.

LEADING BLUEBERRIES

Listed in Order of Ripening

CABOT. Plants seldom exceed three feet in height and make a broad, low bush. The color of the new growth in winter is a light red over olive. The large berries have a delicious sub-acid flavor.

RANCOCAS. The bush of slender, vigorous, upright habit rarely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.

CONCORD. The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are fine in flavor and appearance.

RUBEL. A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July. Best commercial variety.

JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are the largest of any here listed, light blue, and ripen about the same time as Rubel.

Grow Finer Flavored Berries

With Harrisons' Select Certified Raspberry Plants

LATHAM

WORLD'S LEADING RASPBERRY

The sensational yields of this variety have attracted the attention of growers everywhere, and all those who have given it a trial are praising the many unusual features they have found in Latham. After thoroughly testing Latham we find it a remarkable variety in every respect; you will be both delighted and surprised after giving it a trial.

Large Berries—Tremendously Productive

Latham is a tall, vigorous grower, the canes are extra heavy, well able to support the load of fruit. The foliage is healthy, dark green, tough and leathery, highly resistant to insects. Latham ripens with Cuthbert, covers a longer fruiting season. The berries are beauties and will cause a sensation wherever they are shown. Many are over an inch in diameter and they hold this size to the end of the season. Color dark, rich red.

A Blue Ribbon Winner for the Home and Commercial Grower. It simply cannot be equalled.

CUMBERLAND

Every Garden Should Have

INDIAN SUMMER

Sensational New Everbearing Raspberry

A dish of big red juicy Raspberries sprinkled with sugar and swimming in pure cream, it can be yours for every meal from June into July, and again from mid-September until frost, if you will plant Indian Summer. Makes tasty, scarlet-red sauce or pie and the finest jams and preserves you ever tasted. Frozen Indian Summer Raspberries is like having them fresh from your garden the year 'round.

Indian Summer Raspberries are no experiment; they have fruited successfully for thousands of gardeners in nearly every section of the country. This is truly a champion for your garden. Order early.

The Most Popular Black Raspberry

CUMBERLAND

Midseason to late. This is the most popular Blackcap of the present time, because of its great size, firmness, and productiveness. The fruit is the largest of the Raspberry family, and is of such handsome appearance that it is sure to bring the top prices on the market.

A BIG CROP EVERY YEAR

Cumberland has never been known to fail to produce a big crop every year. This variety is perfectly hardy and tremendously productive, the bushes are vigorous, upright and healthy. Berries are glossy black in color, not equalled by any other variety in quality, flavor and appearance. It's good to eat and good to sell.

Here's Another Extra Good Blackcap
The Mammoth New MORRISON

This brand new variety has been a sensation wherever planted. Mammoth sized berries, glistening jet-black color, rich flavor, fewer seeds, heavy producer. The thrifty, strong, hardy plants are heavily rooted and disease resistant. Easy to grow, excellent for canning, eating fresh, freezing. Ripens slightly later than Cumberland.

BOYSENBERRIES—A Real Treat, Easy to Grow

New the Sensational Boysenberry

HARRISON BROTHERS
BERLIN, MARYLAND

The New Mammoth Berry That Will Revolutionize the Berry-Growing Industry

Two Inches in Length
NEW LOWER PRICES

The new Boysenberry is truly a glorified Youngberry. We offer it again this year because of the tremendous large size of the berries; because of its very prolific fruiting; and lastly, because we think that it has the highest qualities of all bramble fruits.

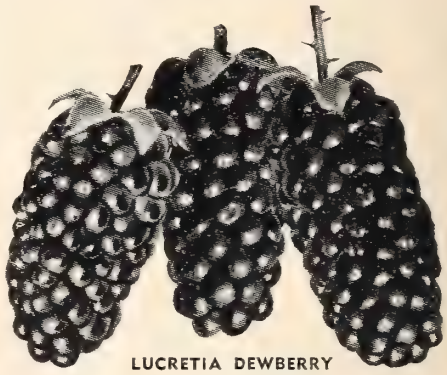
They are just as easy to grow as Blackberries. They produce a larger crop, not because there are more berries, but because each berry is so much larger. Has a rich, tangy flavor all its own.

No. 1 plants: 3 for $1.15; 6 for $2.05; 12 for $2.95; 25 for $4.65; 50 for $8.10; 100 for $14.05; 250 for $30.40; 500 for $48.85; 750 for $66.95; 1000 for $85.00.

Lucretia Dewberry

Long, mammoth black berries, recognized as the leading variety. Incomparably better in every way than any Blackberry you have ever seen or tasted. Lucretia is a very early bearer, ripening from a week to ten days before even the earliest Blackberries. Big, uniform size makes them top-notchers in price on any market. For real profits and for home and commercial growing, Lucretia is the only variety of importance.

No. 1 Plants: 6 for $1.20; 12 for $1.75; 25 for $2.75; 50 for $4.75; 100 for $8.25; 250 for $17.80.



LUCRETIA DEWBERRY

ELDORADO BLACKBERRY

A Heavy Yielding Blackberry that Spells Success Everywhere

The Heavy Yielding Variety. The heavy producing quality of Eldorado has placed it first among Blackberries. Every good quality possessed by other Blackberries is emphasized in Eldorado. Berries of enormous size, shiny jet-black, sweet pleasing flavor.

For Home or Commercial Planting. It is valuable for all purposes, both home and commercial, being so firm that it will remain in good condition for three and four days, and can be sent to distant markets where it always commands the highest price. This variety is making big money for other growers and it will do the same for you.

NEW LOWER PRICES OF BLACKBERRIES: Selected plants, 1-yr., No. 1 grade, 6 for $1.45; 12 for $2.10; 25 for $3.30; 50 for $5.70; 100 for $9.90; 250 for $21.40.

CURRANTS

NEW RED LAKE. Biggest, sweetest, finest improved Red Currant on the market. Large bunches, produced in profusion. Extra hardy.

WILDER. One of the strongest growers and most productive. Bunch and berry large, bright, attractive red color.

Large, 1-yr. bunches, $1.00 each; 3 for $2.85; 6 for $5.40; 10 for $8.00.

ELDORADO BLACKBERRY

GOOSEBERRIES

RED JACKET. Big, roundish oblong berries, with a mild sweet flavor. Delicious for fancy desserts, salads, conserves, pies, etc. Bushes lovely as shrubs. Small, yellow bloom.

DOWNING (Green). Large greenish yellow variety favored for shipping and canning. Highly flavored.

Large, 1-yr. bushes, $1.00 each; 3 for $2.85; 6 for $5.40; 10 for $8.00.

Grow Your Own

DELICIOUS! NUTRITIOUS

ASPARAGUS *It's Easy with*

Harrisons' "Big Yield Strain"

MARY WASHINGTON

Highly Profitable and Easily Grown

Being the first vegetable to come in the spring it always brings a high price on the markets. Stalks being delicious and very healthful, every garden should have a generous supply and when properly set and cared for will last a lifetime.

The Famous True-to-Name Mary Washington

Plant This Pedigreed Strain

There is no variety of Asparagus as good as Mary Washington and whether you are growing for home use only or for market you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture and although it is just a recent introduction it has become famous the country over.

Rust-Resistant—Profitable

Growers everywhere are discarding all other varieties in favor of the famous Mary Washington, because it is earlier, the stalks are larger, more tender and more productive than any other variety and more highly immune to rust, which means that one planting will produce profitable crops for many years.

Large—Early—Tender—Juicy

Asparagus buyers now demand Mary Washington and are willing to pay fancy prices to get it. The demand for Mary Washington is tremendous because when it is once eaten, no other variety will give satisfaction. The stalks are purplish green color, large, tender and juicy. A very rapid grower, which means many cuttings.

Prices of Genuine Pedigreed Mary Washington Asparagus Roots

New Gigantic Red MacDonald Rhubarb

If you want something different, something delicious in garden fruits, then plant some of this grand new MacDonald Rhubarb.

Stalks are of giant size on mature plants, and a rich rosy red in color. This beautiful color carries through the stalk. Sauce made from it has the red color of a dish of Strawberries. Flavor is mild and pleasing. This new Rhubarb does **not** send up seed stalks and never becomes tough or stringy. Just cut in small chunks and cook. Do **not** remove the tender skin; it cooks right up with the stalk.

Heavy plants: $1.00 each; 6 for $5.40.

SAVE A YEAR! PLANT JUMBO THREE-YEAR Mary Washington Asparagus Roots

Yes, you can grow your own delicious tender Asparagus quick by planting our jumbo size roots. These roots are the cream of our three-year-old crop and have already borne large, early, tender, juicy Asparagus in the nursery. This is the selected pedigreed Mary Washington strain and is far superior to other kinds.

Pick World's Finest Strawberries From Your Own Plants

Streamliner EVERBEARING STRAWBERRIES

A Big Profit From Your Own Back Yard

Everybody prefers the flavor of vine-ripened Strawberries. They are more delicious and usually sell for 10c to 25c more per quart. Customers pay premium prices for garden fresh Strawberries and small growers make real money, up to $500.00 per acre.

Whether you have a small garden or several acres, you can make a big extra cash income by planting Harrisons' "Big Yield" Strawberries. Others are doing it, why not you. It costs only a few dollars to get started.

Extra! STREAMLINER

The Greatest Everbearing Strawberry

SWEET AS HONEY—EXTRA LARGE
EXCELLENT FOR EATING FRESH OR FREEZING
MAKES HEAVY FRUITING BED

- Berries in 90 days or less. No need to wait several months. Plants planted in March or April will commence bearing in early July and bear until frost.
- Three Big Crops From One Planting. Streamliner needs no nursing along as some everbearers do. They are thrifty growers, and do not require exacting soil requirements. Pick your first crop this summer and fall, second crop next June, third crop the following summer and fall.
- It costs less to grow your own berries if you plant Streamliner. Easy to grow, just space them 12 to 15 inches apart in the row with the rows 2½ to 3½ feet apart.
- Profitable to raise. Grow all the berries you need for your own use and sell the rest to your neighbors.

Harrisons' Everbearing MASTODON

A TRIPLE YIELD

1—Plant this spring.
2—Pick first crop, July to frost.
3—Pick second crop, June next year.
4—Pick third crop, August to frost next year.

3 REAL CROPS—3 BIG PROFITS

Bears in 90 Days, and, too, It's the Best Family Garden Strawberry—Loads of Big Berries in 90 Days

Unlike the other varieties, Mastodon begins to bear luscious berries 3 months after planting and bears three big crops in 18 months. Customers have reported yields as high as three quarts per plant the first fall.

WHY WAIT A WHOLE YEAR?

Plant Harrisons' "Big Yield" Mastodon this spring, and grow your own berries this summer and fall, instead of buying them. If you have more than you can use, they are easily disposed of in the nearby community, where they will bring top prices.

MASTODON EVERBEARING

Four Undisputed Strawberry Leaders

HARRISON'S SELECTED BERRY PLANTS

STRAWBERRY GARDEN OFFER No. 21

25 BIG JOE — 25 PREMIER
25 FAIRFAX — 25 CHESAPEAKE
ALL FOR $3.75

BLAKEMORE

No Strawberry has become so popular so quickly as Blakemore. It is the most popular variety in all America. Ripens several days before Premier and is equally dependable, producing big crops every year. The plant is healthy and stands up well during drought. The berries are large, firm, an attractive red and good quality. Fine for canning and preserving because it holds its color and shape so well.

DORSETT, Early

Large Fruit—Vigorous Grower—Heavy Crops

Dorsett berries average large size, considerably larger than the Premier; in fact, their size is comparative with Chesapeake, which is the outstanding late berry. Plant growth is exceedingly vigorous, being far more vigorous than most other varieties. Dorsett yields large crops of fancy, light red berries.

FAIRFAX, Early

The Sugar-Saving Berry

Color is a deep, full red; its rich, sweet flavor brings buyers back for more. Fairfax berries are exceptionally firm, making it an ideal shipper. Superior to all for home use, equal to any for commercial planting.

PREMIER King of the Early Berries

Too well known to need much description. The standard early berry by which all other varieties are judged. Holds all records for big crops and big profits. Premier has filled more crates, made more dollars, and brought joy to more Strawberry growers than any other variety ever grown.

Adapted to All Soils—Heavy Yielder. It thrives on most any type of soil and is a rampant plant maker. Premier fruits extra early when berries are selling at a high price. It is a big yielder of big, bright red berries of fine flavor. For home gardens, local markets, or for shipping moderate distances it has outclassed all the other varieties.

Harrison Strawberry Plants Are Bred Up for Bigger Yields and Tell the Story at Harvest Time.

BIG JOE The Old Reliable Midseason Variety

LARGE YIELD—FANCY FRUIT FINE FLAVOR

Big Joe is a heavy producer of large, brilliant red berries of extra fine flavor and is firm enough to withstand long shipments. The plants are good growers and heavy yielders. This variety succeeds on all types of soil but does extra well with good care and fertility. Be sure to include Big Joe in your planting this spring. Our big yield strain insures big crops.

CATSKILL Midseason

A midseason berry that will produce the largest crops of bigger berries of any midseason variety. Catskill is entirely satisfactory as to firmness, quality, color and attractiveness, season of ripening and climatic adaptation. The highest record of marketable berries was made with this variety. In shipping respects it ranks with Chesapeake and Lupton. It is rated equally as attractive as Fairfax or Dorsett. The berries are borne on rather long fruiting stems which makes it easier to get at in picking.

CHESAPEAKE The Favorite Late Berry

It is a good producer of very large berries that hold their shape well until the end of the season. It does not yield as many berries per acre as some of the early varieties, but the size and quality of its fruit enables it to sell for a much better price which offsets this disadvantage. The berries are firm enough to ship to distant markets and to arrive in first class condition. An exceedingly valuable commercial berry but equally adapted for home planting. We offer a selected "Big Yield" strain.

RED STAR HERE'S A NEW ONE Extra Good—Very Late

This is the other new one by the U.S.D.A., and a cross between the Chesapeake and Fairfax. This is the late one. Berries are large, and are borne on short, stout stems that stay well under the leaves, thus protecting them from late frosts. Makes a good fruiting row, and plenty of money can be made from growing this one, as late berries always bring a high price.

Here is the Easiest Berry to Grow

TEMPLE The Successful New Variety—Can Be Grown Anywhere.

If you have ever tried raising Strawberries and failed, here is the berry for you to try. It will grow on light, sandy soil as well as heavy, water-soaked kinds. The quality of this berry is excellent and its plant growing characteristics are supreme. Berries are extra large, firm, beautiful in appearance, fine texture and flavor. Excellent for freezing, canning, eating fresh, also local and long distance shipments. This berry is the result of years and years of cross-breeding work and is unquestionably the finest new berry for both commercial and home plantings that has been introduced in many years. It has our highest recommendation.

Very Easy to Grow

HARRISONS' HI-QUALITY ORNAMENTALS

NORTHERN STRAIN

CHINESE ELM

Grows 20 Feet in Four Years

Because of its beauty and extremely rapid growth, Chinese Elm has become a leading shade tree of America. It is planted in every state, and like its native country of Korea, withstands intense cold and extreme heat. It makes excellent shade in five short years, averaging about 5 feet growth annually. It is by far the fastest growing hard-wooded shade tree. It resembles the American Elm except that leaves are smaller, with the gracefulness of a Cut-Leaf Birch. **Prices: 5 to 6 ft., $1.75 each; 6 to 8 ft., $2.25 each 8 to 10 ft., $3.00 each.**

CHINESE ELM—Quickest Growing Tree in the World

ORIENTAL PLANE
The Famous Light Bark Tree

ORIENTAL PLANE

(Platanus Orientalis)

A rapid, upright, clean growing shade tree, long lived, beautiful dense foliage. A superb tree of gigantic proportions, which is very hardy. The Oriental Plane, being originally an imported tree during the past generation, has rapidly won high popularity in recent years due to its many merits, which have made it the most useful and the most sought for shade tree for lawns, parks, streets and highway plantings. Harrisons' Nurseries are specializing in growing Oriental Planes and we are the largest growers in America. **Prices: 6 to 8 ft., $3.50 each; 8 to 10 ft., $5.00 each; 10 to 12 ft., $7.00 each; 12 to 14 ft., $11.00 each.**

ALL HARRISONS' BERLIN, MARYLAND GROWN SHADE TREES HAVE BIG ROOTS, SHAPELY TOPS, AND GIVE IMMEDIATE EFFECT AFTER PLANTING

PIN OAK

America's Favorite Oak Tree

The tree of trees—no other tree is more beautiful—once planted the Pin Oak continues to grow for a lifetime. Some of the finest, most attractive plantings depend almost entirely on the stately Pin Oak for their landscape appeal.

Beautiful Bronze Color During Autumn

Deeply cut, bright, fresh green foliage during the summer, turning to a bright bronze color during autumn. The most graceful tree for the lawn, equally as desirable for street or roadside planting.

YOU'LL NEVER REGRET PLANTING PIN OAKS

Prices: 8 to 10 ft., $7.00 each; 10 to 12 ft., $11.00 each; 12 to 14 ft., $15.00 each.

BABYLON WEEPING WILLOW

NORWAY MAPLE

(Acer Platanoides)

Typical Maple leaves, large and bright green, fading to gold in the fall. Trunk and branches are sturdy and strong, lending an effect of rugaedness. **Prices: 6 to 8 ft., $5.00 each; 8 to 10 ft., $7.00 each; 10 to 12 ft., $11.00 each; 12 to 14 ft., $15.00 each.**

BABYLON WEEPING WILLOW

(Salix Babylonica)

A rapid growing, hardy tree, thriving in any moist soil. The Willows are valuable and interesting subjects on account of their graceful aspect. **Prices: 5 to 6 ft., $1.50 each; 6 to 8 ft., $2.25 each.**

LOMBARDY POPLAR

(Populus Nigra Italica)

A tall, spirelike tree used for screens and formal plantings. It is fast growing, distinctly ornamental and beautiful. **Prices: 5 to 6 ft., $1.00 each; 6 to 8**

Prices: 5 to 6 ft., $1.00 each; 6 to 8

- Graded to higher standards.
- Free from diseases and insects.

Harrisons' Guaranteed Super-Select Grade Field-Grown Rose Plant

HARRISONS' ROSES ARE GROWN BY A SENSATIONAL NEW METHOD

Bud selection method of propagation is a definite improvement in Rose growing. It results in bigger, brighter, better quality blooms in larger quantities with stronger, healthier growing plants. Each and every plant we grow for sale is the offspring of the plant that was especially selected for its free flowering characteristics, pureness of color and type, vigorous and exceptionally free from diseases.

HARDY ROSE PLANTS

We absolutely guarantee Harrison Bud-Selected Roses, variety for variety, to be as hardy or hardier than Roses grown in any locality north of us.

Condesa de Sastago

Everblooming Hybrid Teas

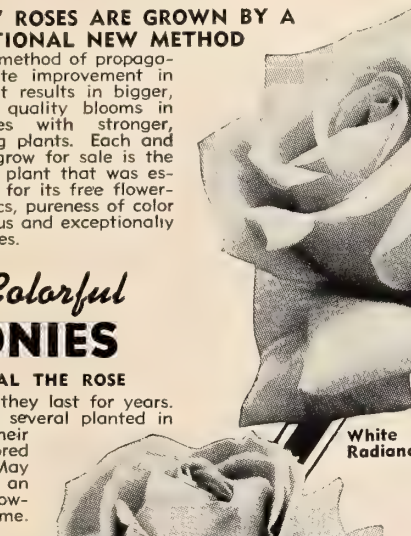
CONDESA DE SASTAGO. Marvelously colored Rose with large cupped flowers of coppery red inside and rich yellow outside. A profuse bloomer at all times, keeps well when cut, and is spicily fragrant. Compares with the Radiance Rose in vigor and hardiness.

GOLDEN DAWN. Considered the finest yellow Rose. Blooms of soft lemon-yellow tinted with old rose markings, long-lasting fragrance of real tea scent. Hardy, bushy, medium height, and very vigorous.

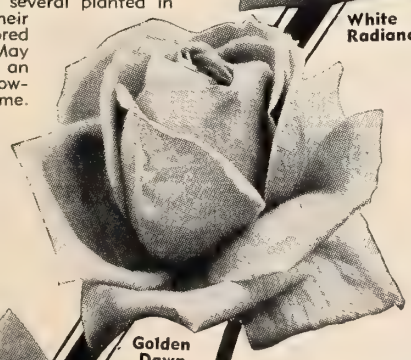
WHITE RADIANCE. A genuine white sport of the ever-popular Pink Radiance. Very vigorous, tall and bushy. Thrives extra well; intensely fragrant. Should be in every garden.

POINSETTIA. Brilliant rich scarlet-red. Huge; ideal long, pointed buds; glorious flowers. Vigorous, tall grower, long stems, and richest scarlet-red. Grand, being a very fine Rose. Should be planted in every Rose garden.

TALISMAN. A multi-colored, glorious combination of orange, yellow and rose-red. They simply eclipse other Roses in autumn. Fine for decoration and cutting. The triple-tone flowers are produced all season.



White Radiance



Golden Dawn

Poinsettia

The Colorful PEONIES

THEY RIVAL THE ROSE

Once planted they last for years. There should be several planted in every yard. Their large, bright colored flowers during May and June furnish an abundance of flowers for the home. Can supply the following colors: **WHITE, PINK,** and **RED.** State color desired.

Prices: 75c each; 3 for $1.95; 10 for $5.50.

EVERBLOOMING HYBRID TEAS

ETOILE DE HOLLANDE. At present considered most popular of crimson Hybrid Teas. Velvety scarlet-crimson with delicious fragrance, and enormous petals. It charms continuously with its delightful color, vigorous growth, and well-formed flowers on long stems. Faultless.

EDITOR McFARLAND. A very fine brilliant pink Rose, destined to great popularity.

GOLDEN CHARM. All that its name implies. Deep golden buds opening to clear golden yellow. One of the best yellow Roses, and grows successfully throughout the nation.

KAISERIN AUGUSTE VIKTORIA. Perfect creamy white bloom, slightly tinged with lemon, large and full. Long, shapely buds to full petaled, deliciously scented bloom. An old favorite that even today has not been surpassed.

PINK RADIANCE. A brilliant carmine-pink with yellow shading at base of petals, having a light silvery tone on the inside, and deeper on the outside. Vigorous, free bloomer, parent of Red Radiance. Among the oldest Roses, it has made good everywhere.

PRESIDENT HERBERT HOOVER. One of the outstanding Roses. A glorious new Rose of vivid cerise-red toned with yellow, orange and scarlet, richly perfumed and free flowering.

RED RADIANCE. A sport of the famous Radiance and identical in all characteristics except color. A brilliant cerise-red color, and intensely fragrant. Tall and bushy, healthy foliage and excellent blooming qualities. The favorite red Rose of America's millions.

AZALEA HINODEGIRI—The Spring Beauty

ROYAL BLUE HYDRANGEA

BUSH ARBUTUS—Everblooming

Here's Three Outstanding Shrubs That Belong To Every Home

AZALEA HINODEGIRI

Deep Coral-Pink Flowers

Azalea Hinodegiri is a dwarf grower with evergreen foliage. In the spring it produces a profusion of deep coral colored blossoms, completely hiding the foliage. Ideally suited for planting around the foundation of homes or adding color in front of evergreens. Grows well in the shade or sunlight.

	Each

1 **Azalea hinodegiri.** 4 to 6 inch.
1 **Royal Blue Hydrangea.** Field grown.
1 **Bush Arbutus.** 1 to 1½ ft.
FOR ONLY $3.75

ROYAL BLUE HYDRANGEA

(Hydrangea Otaksa)

Old favorite southern Hydrangea. When winters are severe we suggest heeling in. Large balls of blue flowers and attractive large leaves. Color depends on acidity of soil. **Field-grown plants, $1.50 each; 2 for $2.80.**

BUSH ARBUTUS (Abelia Grandiflora)

By Far the Best Evergreen Shrub

One of our beautiful, popular and satisfactory broad-leaved evergreens. The graceful, drooping stems and branches are covered with dark, glossy leaves which in winter assume a metallic sheen. From the middle of June until frost, this plant produces an immense quantity of tubular-shaped white flowers tinged with pink, about an inch long, which are borne in clusters. Good for shady locations.

HEDGES *Beautiful living fences*

THE FAMOUS CALIFORNIA PRIVET—The Best Low Cost Hedge—Grown by Harrison Brothers, Berlin, Maryland

Strong, Hardy, Well-Rooted Plants for Quick and Permanent Hedges Harrisons' Hi-Quality Grown

California Privet is the Leading Low Cost Hedge Plant

CALIFORNIA PRIVET

(Ligustrum ovalifolium)

This is the universal hedge in the East, a fact proving that Privet has greater merit under ordinary conditions for this purpose than any other plant. For live fences at village, town and country homes it is the very best of all materials. On public grounds of all kinds, parks and cemeteries, along roads and paths, on factory grounds, and on newly subdivided areas near towns, nothing else can be used in its place, and in this place it is indispensable. It is the best of all hardy hedge plants. Can be easily kept at any height desired; has glossy, deep green leaves, and holds them until late fall. Its strong, quick, upright growth makes it useful for screening out unsightly objects.

SPIRAEA VAN HOUTTEI
Always Makes an Attractive Hedge

GREEN BARBERRY

(Berberis Thunbergi)

The best low dense hedge plant grown. Its abundant, small light green leaves, which turn to rich colors in autumn, and its wealth of scarlet berries make it very attractive. Extremely hardy and requires but little pruning. Ornamental and graceful the whole year.

SPIRAEA VAN HOUTTEI

This grand shrub has done more to beautify the homes of America than any other variety. It is valuable as a specimen, in groups, in border planting and for hedges. The branches are slender, drooping, covered with white flowers in April or early May. It grows in any place either in full sunlight or partial shade. Disease resistant, hardy, thrives under adverse conditions. Ultimate height 6 to 8 feet but can be kept lower by trimming. The most popular shrub. We have an extra fine supply of first class plants this year and are pricing them especially low.

	Each	3	10
18 to 24 inches	$0.70	$1.95	$6.00

ENGLISH IVY—Evergreen

RED-LEAVED BARBERRY

(Berberis Thunbergi Atropurpurea)

A highly important introduction among shrubs, giving us for the first time a practical, easily grown shrub of medium height, with good, distinctly red foliage. This must prove a boon to all types of landscaping, where studied contrasts are to be worked out with the shrub foliage depended on for color. Red berries during winter.

	1 to 9 Plants	10 to 49 Plants	50 or More Plants

15 to 18 inches	.60	.50	.40

Harrisons' HARDY VINES

NATURE'S DRAPERIES

BOSTON or JAPANESE IVY (Ampelopsis Veitchi). A popular climber, clinging firmly to brick, stone or other material; deep, glossy green, ivy-shaped foliage which turns to cream and gold color in autumn. **Price: $1.00 each.**

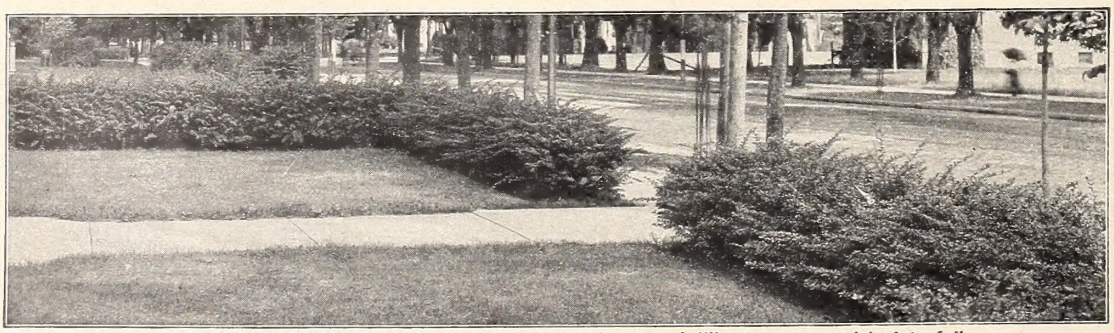
CHINESE WISTARIA. A rampant growing, clinging vine. Blue flowers in large, doroping clusters during May and June. **Price: $1.25 each.**

ENGLISH IVY (Hedera Helix). The most popular evergreen vine; large, deep green, glossy foliage. Excellent for covering walls. Useful for shady locations. **Price: $1.00 each.**

HALL'S HONEYSUCKLE. Deep glossy green foliage; fragrant flowers from July to fall. **Price: $1.00 each.**

SWEET AUTUMN CLEMATIS (Clematis paniculata). A splendid climber for covering porches and trellises. Flowers snowy white, produced in immense quantities during late summer and autumn. **Price: $1.00 each.**

SILVER LACE VINE (Polygonum Auberti). Will rapidly grow 20 feet or more. Forms cloud of lacy, misty white, shot with tints of cream and pale rose. Green foliage, lightly bronzed at tips. **Price: $1.25 each.**



GREEN BARBERRY—Green in the summer, turning to a brilliant coppery red in late fall.
A protection against small animals, because of the sharp thorns.

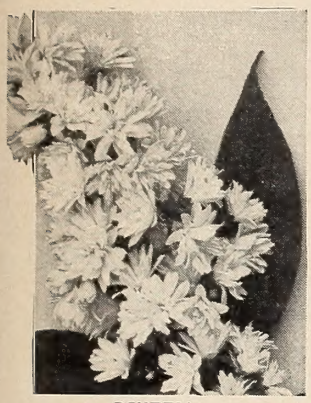
SPIREA VAN HOUTTEI—What a Beauty!

FLOWERING ALMONDS. Nearly always seen in old-fashioned gardens and in early spring is covered with little Chrysanthemum-shaped flowers, very charming. Double white or double pink, state color desired. **18 to 24 inches, $1.50 each; 2 to 3 ft., $2.00 each.**



DEUTZIA, PRIDE OF ROCHESTER

CREPE MYRTLE (Lagerstroemia Indica). Small green, glossy leaves; very beautiful showy flowers during midsummer to fall; noticeable object in any landscape. Not hardy north of Mason-Dixon line, but most popular southern shrub. Pink and red varieties. **1½ to 2 ft., $1.50 each.**

QUINCE, FLOWERING (Cydonia Japonica). Scarlet flowers in April and May. No doubt one of the most attractive spring blooming shrubs. **1 to 1½ ft., $1.00 each.**

SPIREA ANTHONY WATERER. Crimson flowers in large, flat clusters. Blooms early and continues till fall. **15 to 18 inches, $1.00 each.**

WEIGELA, EVA RATHKE. Very attractive deep carmine-red flowers, making a very showy shrub. **1½ to 2 ft., $1.00 each; 2 to 3 ft., $1.25 each.**

BEAUTY BUSH. Pink tubular flowers, heavy bloomer, hardy. **2 to 3 ft., $1.25 each.**

HYDRANGEA PEE GEE (Hydrangea Paniculata Grandiflora). Large flowers; first snowy white, then pink, changing to reddish bronze in the fall. Blooms midsummer to fall. **18 to 24 inches, $1.00 each.**

3 to 4 feet	1.00	2.85

ALTHEA or ROSE OF SHARON (Hibiscus Syriacus). The double and single flowers are formed in varying colors. We can supply double red, white with crimson center, and double white.

BUDDLEIA MAGNIFICA. New and undoubtedly the finest of all the summer-flowering Butterfly bushes. Large bright lavender panicles. Flowers do not sunburn as do other varieties. Foliage heavy rich dark green. Very hardy.

DEUTZIA, PRIDE OF ROCHESTER. Double white flowers, slightly tinged with rose, appear in mid-June.

DOGWOOD, RED-BRANCHED (Cornus Alba Sibirica). Bright red bark, white flowers, blue fruit; rapid grower; beautiful winter effect.

GOLDEN BELL (Forsythia). Vigorous, upright grower; profusion of yellow flowers in April. One of the best early blooming shrubs.

HONEYSUCKLE, BUSH (Lonicera Morrowi). Early white flowers in June, followed by red berries.

SYRINGA, SWEET MOCK ORANGE or GARLAND (Philadelphus Coronarius). Of upright habit, and produces in June a wealth of white, fragrant flowers.

SWEET-SCENTED SHRUB (Calycanthus Floridus). Hardy native with many double, chocolate-colored flowers in May. Flowers, leaves and wood have a spicy fragrance.

TAMARIX, AFRICAN (Tamarix Africana). Feathery gray-green foliage; very showy.

TARTARIAN HONEYSUCKLE (Lonicera Tatarica). Very attractive in blossom, producing an abundance of flowers followed by red fruit. We offer pink and white varieties.

WEIGELA, PINK (Weigela Rosea). The most popular Weigela sold today. Its delicate pink, bell-shaped flowers are borne in great profusion along arching branches.

ALTHEA (Rose of Sharon)

PLANT THE BEST

SAVE TWO TO THREE YEARS BY PLANTING SUPER-SIZE FRUIT TREES HAVING JUMBO GROWTH

Carefully Selected Specimen Trees

It takes years to develop these super selected Jumbo size, heavily branched, thickly rooted, early bearing trees and they are the selection of hundreds of thousands of trees in our nurseries.

Even with our expert scientific propagation methods, second to none in the country, coupled with ideal soil and climatic conditions, all varieties and kinds do not develop the same each season, for this reason we can only supply these Jumbo trees in the kinds and varieties listed here this season. Order early.

GUARANTEE ON JUMBO TREES

You take no chances when you buy Jumbo trees from Harrisons'. If they are not satisfactory your money will be cheerfully refunded in full, providing they are properly packed and returned within 24 hours after receipt.

Home Grown Tree Ripened Peaches are Superior in Flavor
